Lacrosse Plans Promise Excellent Season

Several Home Games at Poughkeepsie Scheduled

Manager Brome has announced the lacrosse schedule for the coming season and a short interview with him has revealed some promising facts. A schedule of six games has been drawn up with the following teams: Yale, Stevens Tech, Union, St. Lawrence, and Toronto. Three of these games will be played at home and three away. According to the present plan the home games will be played in Poughkeepsie.

Coach Banks is new at lacrosse but will handle the team and be assisted by Captain Millington and Patterson and Urquhart, last year's captain. Although official practice has not been called as yet lacrosse sticks have been very much in evidence on the campus during the past two weeks. It is expected that practice will start in earnest immediately after the spring vacation in expectation of the first game, on April 16th, with Union. About ten of last year's veterans are expected to report and judging from the interest already shown by other men, a large turn-out is looked for. The squad should number at least forty men.

The following is the schedule arranged:

- April 16: Yale at New Haven.
- April 27: Stevens Tech at home.
- April 30: Union at Schenectady.
- May 7: St. Lawrence at home.
- May 19: Union at Schenectady.
- June 1: Toronto at home.

Tennis Forecast Promises Active Season

Indoor Practice to Start in Near Future

The tennis team will have an unusually active season this spring beginning with a trip to Philadelphia and ending, possibly, with an invitation match with the Poughkeepsie tennis club. The Varsity will be somewhat handicapped by the loss of the veteran players Ferris and Titus. Morrill will lead the Varsity this year, succeeding to the position of captain which was held by Titus last year. Several of last year's Varsity men are left, notably MacKean, Ferber, Morrill and Brunot. It is hoped that around this nucleus a strong team

Faculty Announces in Regard to New Curriculum

This Year's Frosh and in Some Cases Sophs and Upper Classmen May Take New Plan of Study

In regard to the working of the new curriculum, not only will all of the incoming class of next autumn register under the new plan, but in certain cases students now in college may also come under the new plan next year. A joint committee of the faculty, with power to act, made up of the Committee on New Curriculum, the Committee on Schedule, and the Assistant Registrar, will at certain times, between now and Commencement be available for consultation by students, irrespective of classification, who would like to finish their course under the new plan. In order for a student to be eligible to do this, first his schedule of classes must be shown to fit in with the present general schedule; and second, he must fulfill all conditions under the new curriculum in every particular, including required courses in

(Continued on page 4)

President Bell Gives Poetry Reading

Arranged by Dragon Club

On Thursday evening, March 3, President Bell gave a poetry reading in Albee recreation room. The Dragon Club arranged for the entertainment. Dr. Bell read selections from three romantic poets of the early eighteenth century, Shelley, Keats and Coleridge.

A record attendance, nearly half the college, seemed to indicate that the student body is more interested in poetry than politics. The usual open forum for current events discussion cannot boast of the popularity of the President's reading.

The Dragon Club hopes to be able to induce the President to read again for the student body. Suggestions have been made that Browning or the contemporary English or American poets would be very interesting subjects for future readings.

The Dragon Club wishes to take this opportunity publicly to thank the President for his cooperation with the club program and to extend him a standing invitation to club activities.

Students Hear Lecture on "Social By-Products of a Great Business"

Mr. Haley Fiske, President Metropolitan Life, Speaks on Relation of Life Insurance Companies to Economic and Social Welfare

On Monday evening, March 7, 1927, Mr. Haley Fiske, President of the Metropolitan Life Insurance Co., and one of the trustees of the college, lectured to the student body on the Social By-Products of a Great Business.

Mr. Fiske's talk concerned the relationship of life insurance and life insurance companies to the economic welfare of the country. Mr. Fiske says that there are in existence eleven million life insurance policies covering eighty-eight million persons, of which number twenty-four and a half million persons are insured with the Metropolitan Company. Every fifth person in the United States and Canada, and every third person in the State of New York are insured with his company. The total assets of

Basketball Season Closes With Victory Over St. Michaels'

Varsity Lose to Middlebury on February 22—Harold T. Keen, '29, Elected Captain for Next Year

The Varsity ended the season with a smashing victory over St. Michaels'. Overwhelming a strong team 61-29 gives a fair indication of the character of the play of the home team. Nothing could have stood in the path of such excellent team work, spirit, and accurate shooting. St. Michaels' was helpless from the start and at half time the score was 31-9. As usual, Keen and Ricciardi bore the brunt of the scoring, accounting for 44 points between them.

The score:

St. Stephen's	St. Michaels'
Millington..... l. f.	O'Brien
Ricciardi..... r. f.	Roberts
Keen..... c.	Perotta
Urquhart..... l. g.	Conlly
MacKean..... r. g.	Lynch

Goals from Floor. St. Stephen's: Keen (11), Ricciardi (9), Millington (2), Gellert (3), Urquhart, Lemley.

(Continued on page 4)

Senior Ball to Be Held on May 20

Many Activities Planned for Week-end

The Senior Ball, to be held during the week-end of May 20th, promises to be one of the outstanding social events in the history of the college. The dance will last from nine until four, a midnight supper being served during the intermission. The committee announces that they are getting bids from the following orchestras: Fletcher Henderson, Ipana Troubadors, Colgate Blues, and Wesleyan Serenaders. Attempts are being made to schedule tennis matches and a lacrosse game during the week-end. The Dance Committee is as follows: G. A. Shrigley, chairman; C. W. Crandall, Jr., treas.; C. Mentzer; H. F. Bartley; F. S. Patterson. Crandall urges that all who have pledged their five dollars for the dance will please pay promptly.

The Kappa Gamma Chi Fraternity is going to serve dinner to Kaps and invited guests on Friday evening before the dance, and lunch and dinner the following day. In the afternoon a tea dance will be given in honor of the faculty and an invitation dance that night. Every effort is being made to add to the success of the week-end. G. Bearden Kunkel is chairman of the committee in charge of the week-end activities and is aided by George Shrigley and Douglas McKean.

Frosh Dance a Great Success

Due to the arduous efforts of a few hard-working members of the class the Freshman dance was one of the best of its kind in our memory of such affairs. The decorations, which transformed the gymnasium into a hunting lodge in a not unsuccessful manner, were the result of the labors of Messrs. Leverett Smith, Gamble, and Carlile. The music was excellent, and we hope to hear the Wesleyan Serenaders, procured by Mr. Hagen, again before we leave college. '30 deserves much praise for this, their first college dance.

A HICKORY IN PAIN

Strange, sharp broken color
You moon-lit hickory.
All the yellow of brightest daytime
Cannot make those branches, quite
Forget their love of moonshine color
That nightsome quality, near white.
But the rain can place upon them
Spotted, complimented shadings
That hold the eyes in silent gazing
And the soul aquiver in suspense.

A free gold sunlight
Pouring down
On a half snow-covered world;
Making the slow sleeping earth, just
now,
All gay and color smothered.

Violet shadows slipping
Down the damp,
Dark trunks of ash and oak;
While beech and birch know blue
Where branches hide from light.

Symphonic color drenching
Every field, I see
Held in shimmered beauty
Before the high blue-purpled
Mountains—close against the gold!

NATIONAL STUDENT FEDERATION

From time to time we have published news accounts of the various activities of the National Student Federation of America, so you are undoubtedly acquainted with its existence, and to some extent of its objects and accomplishments. However, we wish to bring to your attention the real importance of this organization and its significance in

student affairs. It is not only the largest student organization in the United States, its membership including colleges from every part of the country, but also it is universally recognized by educators as a constructive in student affairs. A report of the proceedings of the second annual congress of this organization we have published in a former issue (see Lyre Tree for January 14). However, we will outline here certain general problems on which the Federation is focusing its attention:

(1) The stimulation of the student's interest in his mental development to the end that the desire for intellectual attainment may become the dominant factor in college life.

(2) The achievement of more intimate relations and closer cooperation between teachers and undergraduates.

(3) The reappraisal of a college's claim to greatness in terms of its service in the intellectual, economic and political development of its state and nation.

We think it is highly desirable that St. Stephen's includes itself among the members of this organization, as a student body which claims to be progressive. The question of our joining the Federation will be brought up at a meeting of the Convocation in the near future. Meanwhile we commend it to the students for their consideration.

We wish to extend our most hearty congratulations to the Dragon Club for its attempt to stimulate our much needed extra-curricular activities. There is no need of our going over again in these columns the great value of these activities in college life. However, we will never cease from urging the students to support these attempts and make them a success by their participation.

Junior-Varsity Defeat New Paltz Normal 34-24

On Friday evening, March 4th, the Junior Varsity went to New Paltz Normal School. The game was fast throughout. New Paltz got away to an early lead and was ahead by a score of 11-5 at the end of the first quarter. Led by Quarterman the Saints staged a brilliant rally and at the end of the first half the score stood St. Stephen's 16, New Paltz 15.

In the second half the Junior Varsity broke loose and soon established a safe lead which was never again threatened throughout the game. The last three minutes were played with only four men left on the team, the others being disqualified by four personal fouls. George Quarterman excelled for the Saints, making 17 points, while Van Wagnen starred for the opponents, with 11 points. The final score was St. Stephen's 34, New Paltz 24.

THE INTERCAMPUS

By an announcement of Dean W. T. Walden, Yale freshmen with an average of eighty per cent can cut classes at will provided they maintain a high scholarship.

"A short course in embalming will be offered by the extension division of the University of Minnesota. It will run for 12 weeks." Why not make it the twelve weeks before exams?

From the Trinity Tripod we get the following news item: "The Lafayette," unwilling to sacrifice the age-old tradition of editorials, yet feeling that some change had to be made from the stereotyped, 'What the dear old college needs' editorials, has come out this week and dedicated the sacred two columns to the cause of abolition of clothes for women." Perhaps that is why we didn't get our exchange copy this week.

"Believing that genius is sometimes developed and not always born to be self-expressive, St. Lawrence is bending its efforts to create a book of original poetry which will be composed entirely by the students of the University. This and other developments among students indicate a growing interest in the arts." The "Lyre Tree" might do well to start a similar movement to dispose of the influx of anonymous contributions. Spring weather ought to help the good cause along.

The president of Stanford University objects to the annual bonfire rally just before the Big Game because of attendant inebriety and moral laxity. Whereupon "Bull Session" in the Stanford Daily points out that "no reasonable man can be expected to march about the campus and yell for two hours if he be perfectly sober, not even if the Administration building were to be ignited to give him something to yell about."

ORATORICAL CONTEST ON APRIL 11

Attention is called to the fact that entries for the annual oratorical contest must be in by March 1. If by that time at least four students have signified their intention to participate, the event will be held on the date planned, the evening of April 11.

For those not thoroughly familiar with the details of this yearly event, attention is called to the statement posted in the glass-covered bulletin board in Preston dining commons.

Considerable interest has always been shown in the contest, not only for the cash prizes involved, totalling one hundred dollars, but for the benefit in public speaking that is to

be derived from the preparation and training for the affair.

For the benefit of the new men in college, it may be stated that all Freshmen included, who are eligible for extra-curricular activities are eligible to take part in the contest.

STUDENTS HEAR LECTURE ON "SOCIAL BY-PRODUCTS OF A GREAT BUSINESS"

(Continued from page 1)
fifty-two life insurance companies in the United States are twelve billion eight hundred fifty million dollars, of which the Metropolitan has one-fifth, or over two billions of dollars. The whole secret of the insurance business is in the ability to make investments. The Metropolitan invests a million and a half of dollars daily. An insurance company must keep within a certain limit of expenses, know exactly the mortality rate of all ages insured, and be able to depend on its premium payments to keep going. The company's assets are fluid, and the only static money is the reserve fund which the law demands for the payment of policies. The reserve fund of the Metropolitan amounts to nine million dollars. The company insures twenty million. These people are the capitalists, they own the company—there is no stock in this company, the policyholders are the stockholders. The company has 25,000 agents who collect weekly premiums. These agents have contract power to enter the home of any policyholder for collection.

The Metropolitan Company does not only tend to the details of issuing policies, collecting the payments, and then paying the policies when due, which would cover the obligation of the concern, but it takes upon itself the responsibility of looking after the health and physical welfare of its policyholders. It is necessary to teach the working classes means of preventing disease and of maintaining health. The company provides medical attention in cases of illness, employing a huge staff of nurses throughout the country; distributes great quantities of health literature; operates a tuberculosis sanitarium; broadcasts daily setting-up exercises, with health talks; and does all in its power to decrease the mortality rate. It runs health advertisements in magazines, and has a paper of its own with a circulation of over five million. Since 1911 the company has lengthened the average life of its policyholders 8.8 years.

The Metropolitan Company also has contributory group insurance for working men, which is partly paid for by the employers. This, Mr. Fiske says, is motivated by a spirit of love of the employer for the employee. Today love governs the world, and this group insurance has done a great deal to remove the old idea that the worker was being exploited by his employer. This insurance has all the benefits of ordinary insurance, and takes care of death, illness, and injury.

Basketball Season Is Reviewed

Regarded from the number of games won and the number of games lost the past season could be called a failure, but from every other standpoint it was a success. Notwithstanding the fact that the Varsity played the majority of its games with teams obviously out of its class, it never suffered a humiliating defeat and in the final check-up our opponents only scored twenty-six more points.

The high points in the season were the Middlebury and St. Michael games and the splendid showing against the Army and Dartmouth. Coach Banks has introduced a system of basketball which has proved itself worthy, and with only two men lost for next year's team the season ought to be a banner one.

Name	Baskets	Fouls	Total	Games	Av. Points per Game
Millington	46	11	57	17	3. plus
Ricciardi	82	26	108	14	7. plus
Keen	132	15	147	18	8. plus

ADMINISTRATION OFFERS TWO SCHOLARSHIPS TO HUDSON VALLEY SECONDARY SCHOOLS

President Bell has announced the offer of two scholarships to encourage the scholarship in the Hudson Valley secondary schools. The scholarships are for \$250 each, and the conditions governing their award are as follows:

(1) The applicant shall be a graduate of a secondary school in June, 1927. He shall be in the top 15 per cent of the graduating class.

(2) He shall present Regents' certificates in fifteen college entrance units from among the following subjects: English, French, Italian, Spanish, German, Latin, Greek, Mathematics, History, Civics, Economics, Physics, Chemistry, Biology, Zoology, Botany, Physical Geography. He shall have completed at least four years' work in English, three in foreign languages, and two and a half in Mathematics. His Regents' marks shall average at least 75 per cent and shall in no subject be lower than 65 per cent.

(3) He shall present proper certificates as to character and health.

(4) He shall file full data by June 20, 1927, and awards shall be made by July 10, 1927, after a study of all applications by the entrance officers of the college.

(5) The holder of one of these scholarships shall, if he reaches an average of 75 per cent in his Fresh-

man year at the college (the passing mark is 65 per cent) and fails in no subject taken, be granted the scholarship in his Sophomore year. If he reaches an average of 80 per cent in his Sophomore year with failure in no subject he shall be granted the scholarship for his Junior and Senior years. The possible value of such a scholarship for the four years is, thus, \$1,000.00.

CO-EDUCATION A BAD FEATURE OF THE "FLOATING UNIVERSITY"

Those of us who have been waiting to discover the results of the "Floating University" conducted by the University Travel Association may be enlightened by the following reprint from "Time." Henry J. Allen, one-time Governor of Kansas, and editor of the ship's daily newspaper, announced the following from "Rome":

Taking 100 girls to sea with 400 boys had NOT been eminently successful, for three reasons which the Associated Press adroitly paraphrased for Editor Allen: "(1) The presence of companionable young women distracted the young men from their studies to a disturbing extent. (2) Contiguity of youth of both sexes started many courtships of varying degrees of intensity. (3) Residents in foreign ports at which the ship touched, not having reached the American ideas of the emancipation of women, misinterpreted the meaning

of the venture, with resultant complications."

In the United States, reactions to this statement were equivocal. President Emeritus Charles Franklin Thwing of Western Reserve University, who, as president of the Floating University, was to have rejoined it in the Mediterranean after leaving it at Panama, but who did not rejoin it, stated vaguely: "I had a personal and altruistic purpose in starting the university, and everything so far has worked out beautifully." Yet the University Travel Association announced that its next cruise would be for men only, and would be "more effective from an educational standpoint." And within the University Travel Association appeared a rift, a split. One A. J. McIntosh, who helped organize the Ryndam's cruise, lamented Editor Allen's statement and announced that a new organization, to be called The International University Cruise, Inc., would conduct another co-educational globe-trot next autumn on the Cunarder "Aurania." "We are going to allow parents or other relatives to accompany the students," said he.

TENNIS FORECAST PROMISES ACTIVE SEASON

(Continued from page 1)

will develop. Lemley, Huess and Nobis have shown their ability in the past; from these candidates the remaining Varsity players will probably be chosen.

The schedule for the spring season is as follows:

April 28, Drexel at Philadelphia.
April 29, Open date at Philadelphia.
April 30, Fordham at New York.
May 12, Wesleyan at Middletown.
May 13, open date.
May 14, Springfield at Springfield.
May 19, Fordham at Annandale.
May 20, Middlebury at Annandale.
May 26, University of Vermont at Burlington.

May 27, Middlebury at Middlebury.
May 28, Norwich at Northfield.

Assistant Manager Hawkins has arranged home and home matches with Kingston High School and New York Military Academy. A third match will be played by the second team. The opponent will probably be either Albany High School or Hoosick School of Hoosick, N. Y.

It is hoped that candidates for the Junior Varsity will cooperate with the captain this year to build up a substantial reserve of capable netmen. Robinson, Calkin, Empsall, Gellert, Huiss, Hawkins, Tilton and Rapallo have demonstrated their ability in the past and it is hoped that these candidates will form the backbone of a strong tennis squad.

Under the direction of Captain Morrill the squad will begin indoor practice in the near future. It is hoped that by the time the courts are in shape the netmen will have become used to handling their rackets again and will begin to practice in earnest for the first big match with Fordham.

Plans have been discussed for improving the courts this spring. It is hoped that this work will be done in time so that the team may benefit by the improvement this year.

FACULTY ANNOUNCES IN REGARD TO NEW CURRICULUM

(Continued from page 1)

languages, in mathematics, and in concentration. Before seeing the committee on the days which will be announced later, a student should bear the aforesaid two conditions in mind, and see if his own case conforms to them. And, only when his schedule is approved by the joint committee may he come under the new curriculum.

A careful study of this announcement will reveal that it is obvious that, except for a very few and isolated cases among Sophomores and Upper Classmen, only Freshmen of this year and members of the incoming class will be able to take advantage of the new plan of study. Thus, for each individual who wishes to enter upon it the wisest thing to do would be to make a careful study of his case before he takes it to the committee.

BASKETBALL SEASON CLOSURES WITH VICTORY OVER ST. MICHAELS'

(Continued from page 1)

St. Michaels': O'Brien (5), Dionne (2), Perotta, Conlly, Lynch.

St. Stephen's Loses to Middlebury

St. Stephen's lost to Middlebury 20-18 in an extra time period. The home team deserved to win but the odds were against them from the start. The playing of the Varsity was the best of the season and the game was a credit to the team despite the fact they lost. At half time Middlebury led by seven points but aggressive playing soon cut down the lead and at the end of the game the score was 18 all. A long shot in the extra period gave the game to Middlebury. Ricciardi was high scorer for St. Stephen's with five baskets and a foul.

Keen Elected Captain

An informal reception was given to the members of the team by Mr. and Mrs. Banks, at which was announced that Harold F. Keen, '29, had been elected captain of basketball for next year, and that the prize of a sweater for the man who had worked hardest for the team was to be given to Manager Ernest R. Nicholson, '28.

St. Stephen's College

A CHURCH COLLEGE OF ARTS AND LETTERS

With four years' work leading to the degree of B. A. It meets the highest standards of scholarship set by the Middle States College Association, and features inexpensiveness of living, intimate personal companionship of professors and students, and sincerity.

The fees are: For tuition, \$250 a year; for a room, furnished and heated \$125 a year; for board in hall, \$225 a year; a total of \$600.

The college is equipped for teaching men who after graduation, are going into business or into post graduate schools of medicine, law, theology, journalism, or into classical, social or literary research.
