Administration Makes COLLEGE ANNUAL TO BE EDITED BY STUDENT BODY

First in History of the College Is Initiated by Class of '27 To Be Dedicated to President Bell

REPORTS ON THE SENIOR DANCE

The Senior Dance Committee reports that arrangements are well under way. Bids from various orchestras have been received, and in all probability the Jersey Collegians will be accepted. The midnight supper will again be an attractive feature of the affair. The success of the dance depends on a large attendance. It is hoped that every man in college may be present to enjoy this distinctly St. Stephen's dance.

At a recent meeting the Senior Class, on the initiative of Harry B. Meyer, undertook the responsibility of publishing a year book. A contract has been made with the College Annual Corporation of New York City, represented by Clifton Willard. ex-'28. The staff has been selected as follows: Business staff: managing editor, Harry B. Meyer; asst. managing editor, C. W. Crandall, Jr.; circulation manager, G. B. Kunkel: asst. circulation managers, A. V. Rapolla and J. H. M. Darbie; literary staff: editor, R. D. Smith; associate editors, B. B. Brown and G. A. Shrigley; art editor, H. F. Bartley; photographic editor, Richard Raymond.

The annual will contain ninetyeight pages of a photographic and literary record of the personnel, customs and activities of St. Stephen's. It will be conspicuous for its large number of excellent photographs, portrait and panorama, interspersed with several full page drawings and decorative heads by F. S. Patterson and G. S. King.

According to a statement made by the annual staff, the function of the year book is to chronicle the great "Parliament and War," a study of strides St. Stephen's has made in the

drama, and historically one of the Dr. Flournoy's book is one of two two most important French plays.

PRESIDENT HOPKINS' PLAN (Continued from page 2)

cal basis, by which each college should develop from the varsity squad two major teams, one of which should play at home, and the other of which should play on the rival's home grounds;

Third, all coaching to be done by undergraduates, presumably by seniors who had acquired knowledge and experience during their participation in intercollegiate athletics previously.

To Democratize Football

Restricting eligibility to sophomores and juniors would in itself, President Hopkins explained, "open up the possibility of participation in intercollegiate sport to a considerably increased number of men. The necessity of developing two teams, between whom there should be no distinction in rank, would further tend to bring a much larger number of men to an interest and active participation in the game. And this latter proposal would diminish the possibility of the public and the press from focussing their attention on a restricted group of men or upon individuals, and would aid and abet the tendency to attach importance to team play rather than to individual stars.'

"I am convinced from my own acquaintance with athletes," President Hopkins wrote, "that the man who goes to college for an education and who is incidentally an athlete, oftentimes gets about as much intercollegiate football as he wants by the end of his junior year."

"An Adventure in **Educational Sanity**"

Recently Issued Bulletin of the College Explains the "St. Stephen's College Idea"

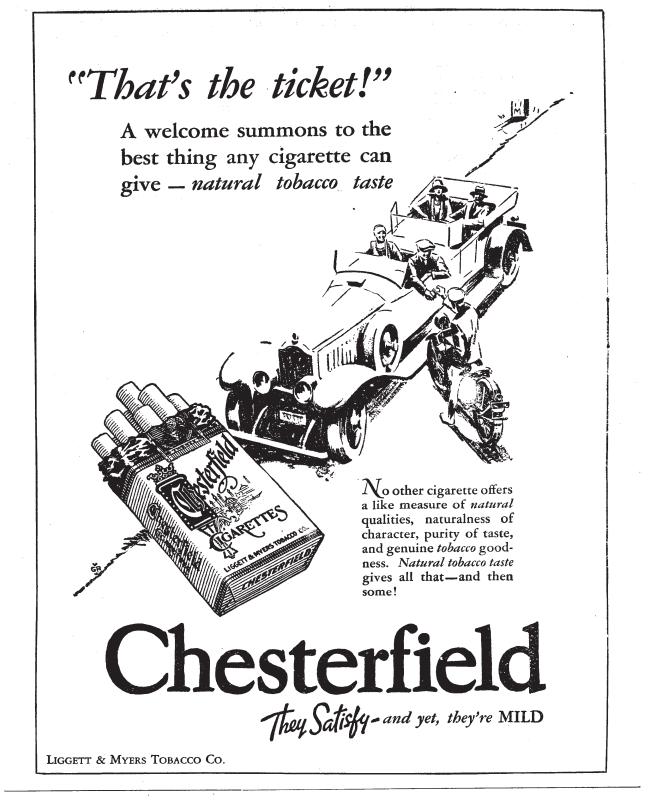

At St. Stephen's College it is believed that much of the difficulty commonly reported at other colleges has either been avoided or overcome by the "St. Stephen's College Idea."

The primary purpose of a college is hard intellectual labor. To this all other good things, while approved, must be subordinated. The student must be trained to think; he must do his own investigating and thinking; and as no two students are alike, methods must be adapted to the student-not him to them.

The essence of teaching lies in contagion of interest and this can be received only by natural contact of instructor and student in a common residence comparatively isolated from distractions. The group must be sufficiently small so that every teacher shall know every student. The size of the college must therefore be restricted to thirty teachers and two hundred fifty students.

Inasmuch as present day secondary school training is insufficient to prepare the usual man for mature thinking, the first two years should be largely devoted to completing such preparation. No student should be Tel. 45-F-5
