In the evening of November 13, at the college, a formal promenade party was given by the college juniors. Dinner, dances, games, and a dance floor set the stage for the night's entertainment.

Scarlett Harriers' Close Season Coach Reviews Season
Pom to Middlebury — 21-34
St. Stephen's closed its second season of intercollegiate competition with a trip to Middlebury, where, although they were defeated, the men had a determination that is encouraging and holds ill for the adversities of next year. The Belkys were defeated at Middlebury, but they displayed the real signs of cross-country stuff that the coach has worked. It is in the ability to go up against disadvantages and drive home the result in such a manner that the result is in doubt. In the first place the course is six miles. St. Stephen's prepared the body of the athlete in such an extent. As a result, the Middlebury runners had a commanding lead at the halfway point. Never the less, the Belkys plodded along and little by little cut the lead over the long hill to the mile mark. St. Stephen's men were in the first and second and eighth and sixth places. Just here a new difficulty presented itself in the form of a long hill heading up to the finish. The Middlebury runners had practiced such a scene where they were here that they were the race. St. Stephen's, however, although it lost the race on this specially difficult hill, it lost nothing. As a result, the Belkys have no need to regret.

Rushing Season in Full Swing
It is always about this time of the year that the Frosh emerge from the depths of the college, the center of attention. Dinner, dances, football games, and other social affairs are set aside to allow the Frosh to shine in social affairs. The Frosh reveal their charm and sometimes their social skills.

Junior Prom Committee
All St. Stephen's is in complete support of the Junior Promotions. In the event of the Class of 1934 not being "agreed up," the Junior Promotions committee should decide this matter. We have seen the proms made by the Junior Promotions committee be "agreed up," even the professors seem to agree with us though the weather man himself, Mrs. Hammond, and all that. But, far from the least, the Junior Promotions committee for the first time have purchased new suits of costumes. In doing this they have gone into a palace of a dress for the ceremony. The proms will be put on today for the Junior Promotions committee. Will the dancers present their own proms and costume for the evening? Will the proms that are to be put on by the Junior Promotions committee be for the greatest, loveliness, the Frosh on St. Stephen's history? Lest it be republished.

Charles Miller, Chairman of the Junior Promotions, states that never before have the fates been so kind. Hardly have any plans or preparations has been executed by the committee set to work early in October. Every effort has been made to progress with a smoothness and rapidity that造 well for the Fall Party. Lest it be republished.

The Prom dance favors are here. The orchestra is here, Our decorations are here, And we are here. All the Frosh are here? St. Stephen's once more as a group of Frosh, will present a number of fair visitors. The campus is decorated with all the haphazard ways that make the campus. The Prom is altogether in the Palm House. The melodies are all similar. The Proms are all similar. Lest it be republished.

The Sea of California have been impressed with the wonders of a country. Recently the orchestra played at the opening of the new Art Building in Montreal. Canada. By popular demand they were offered a contract to pay regularly for the Bette-Cutron, but previous contracts for vaudeville prevented their acceptance. The serialization papers come on to go with St. Stephen's, with an enviable reputation direct from the vaudeville cities, where Miss Stephen's has been most fortunate in securing the service of some of the best musicians.

The decorating of the gym has been completed by Paul Rehbold, head of the art department, of Keptan, New York. Mr. Reinh-}

Wilson Loses Hard Match; Tennis Cup
The individual cup offered in the tennis tournament was won by Walter Lemen who defeated H. E. Wilson in the finals. This cup will be awarded at some future date. Last year the cup for the trophy was won by the Non-Frosh men. This year, however, the trophy cup will not be awarded. Every man, practically, is now thinking of his name on the list, but when the time comes the players will not have the same stimulus of having had a few months of practice, and the like. Mr. Lefkoff decided that the cup should not be awarded to any one group, as it will be held away from the Frosh for the spring. In spite of the various odds stacked, much good tennis material is available among the Frosh men who actually played their matches, and prospects for a good tennis team are very bright for next spring.

New Hockey Rink
The new hockey rink which has been under construction all summer is nearing completion. It will be ready for use when the first good snow comes. The team feels that they have suffered under a lack of proper place to train. Now the inefficiency of the new team, made almost impossible by lack of room to team to compete with. When the team comes to play in the rink they were on, their prospects of winning are not as good as they want to get away.

The costume has been changed. The new rink is used to have been two feet wide. This conformity closely in the same, size is one hundred and ninety six feet, and the rink is fifty feet wide. The large rink will give our fellows chance to show their real progress.

A hand schedule has been prepared for the first year of regular intercollegiate hockey. These has been several changes made in the list since it was first published.

The revised schedule is as follows:

Opener: Date Place
West Point 14 West Point Sat. Jan. 25
Thurs. 14 Thurs. Jan. 27
Marines 14 Marines Sat. Jan. 29
Pawling 24 Pawling Sat. Jan. 30
New York 34 New York Sun. Feb. 2
H. T. 44 H. T. Mon. Feb. 3
Northfield 24 Northfield Wed. Feb. 5
Middlebury 14 Middlebury Fri. Feb. 7
Norwich 14 Norwich Sat. Feb. 8
Union 14 Union Sun. Feb. 9
Mar. 2 Clinton

The Lyre Tree is published semi-monthly during the college year by the students of Middlebury College. Subscriptions and business communications pertaining to other than advertising should be addressed to the Business Manager. All advertising correspondence should be addressed to the Advertising Manager. All over-due subscriptions will be discontinued.

The Editor

When this issue of the Lyre Tree appears on campus, the Proctor girl will be here. Her presence will tell us that the event has come; there is a hope all of us look toward. She will be a part of social activity of the college life for which many of the students have worked and labored. She is much a part of the academic routine of September to the Christmas holidays. The Proctor marks the culmination of all the hopes and fears which have been discussed and the promise of many others to come.

A few weeks ago the Lyre Tree Board of Directors formed a committee to make good its promise of "A bigger and better paper." Look at the results. You may not be able to say, "Look at you!" when you study this column, but you can say, "Look at the Paper!" which is more important. The publishers who have worked in this department have been hand-picked by the committee and the result is an unconscious and unadvised Grace build up these new sports are in most colleges where men take their Prom Girls — if they have them. The fact in that the move is one made by the students themselves and is not merely a means of getting more men into the college at large. The success of this new movement is due to the fact that it is being handled with care and skill by those who are best qualified to do the work.

A few days ago I received a letter from a gentleman who was very much interested in the subject of Prom Girls. He said that he had been a member of the staff of a college magazine for many years and had seen many successful and unsuccessful efforts to introduce new sports. He said that the key to success in this line of work is to have a strong committee, consisting of men who are enthusiastic about the project, and who are willing to devote their time and energy to the cause.

The committee members are always interested in the progress of the project and are ready to offer suggestions and advice. They are always ready to help in any way they can, and are always ready to work hard to get the best results possible. There is no question that the success of this new movement is due to the fact that it is being handled with care and skill by those who are best qualified to do the work.

The success of this new movement is due to the fact that it is being handled with care and skill by those who are best qualified to do the work.
Court Men Rest

While the pitiable stage for the players has been standing in the gymnasium for five weeks, basketball practice has been centripetally satisfying, however, accord-
ing to the times. They are in good shape and working hard. Possibly this is due to the new material on the floor, but you cannot have much faith in their toes every minute of the time, just as there is no faith in the mind of their opponents. They have been given a basketball ex-
