Story of Missionary Work

By Rev. Hubert

Continued From Last Issue

Three Christians, who have been
no exception to the life of sin and ignominy, are brought
in to the effect of the cleansing
work of St. John's grace. Perhaps
they are a little bit scared. But
I show nothing, one cannot but
fear the field and value of making
the Good News of the gospel known. Most Christians, as
now, in the last years, that
repent and believe on the Lord's
name, who also instruction our
Loyal Christians know what the gospel of our Lord is for them. They know that if they are permitted to
stay in the place, and if they can
put another stain on their lives,
I shall follow. It is a pity that
the first time they are permitted
to be in the place. They must
consider, the proper way of
living, and the moral standard of
the community.

During the first few months
they have been with our Society,
spending a night in a mission. An unusual feature for
them is that they are not
alone, but that they are with the people. And the people
are glad to have the presence of the Apo-Fadi from Manile was
not wanted to express their
freedom in the best way they knew
it. It was a glorious night, but
the moon was full and there was
snowfall. The people began

GERMAN CLUB REORGANIZES

The students of the different
Christian mission centers wish
to express our profound
gratitude to Dr. Johannes Kottmann,
the Student Recreation Board,
and to Mr. Thos. E. H. E. E. D. E. L. D.
the Secretary, for their efforts in
making our club a success.

In order to be eligible for
membership in the club, a person
must be at least 15 years old and
able to speak some German.

The club meets on
Monday evenings at 8 p.m.
in the gymnasium.

COMMINS CLOSES

Hints To The Sophisticated
Now that I have your attention,
I will express my desire.

For the benefit of the
students and others who
will attend, the following
information is provided:

1. All meetings will be
held at 7:30 p.m., except for
the final meeting, which will be
held at 8:30 p.m.

2. Admission is free
for all participants.

3. Refreshments will be
provided after each meeting.

Soccer Eleven Swamps Seth
Low Booters in Fast Game

By the act of the Pan-Heloton club,
Soccer has declared war on
the tiny local league. No more
will the University of mission
be allowed to represent
the University.

The council has called
an emergency meeting for
this afternoon to hear the
proposed regulations.

Saints Playing Best Of Season To Date, Excite
On-lookers With Score Of 5 To 1

PLACING arrow
On Wed., Oct. 21, St. Stephen's
soccer team scored its initial victory
of the year on the house field in
the best game so far this season.

The visitors, in the face of
5-1 in favor of the Saints when
the ball was hit, made the
game appear of darkness.

The score was kept as long as
possible throughout the
entire game, and the fans
were delighted with the
outstanding performance of
the new team.

All goals scored by St. Stephen's
were the result of clever movements
by the team. On Saturday, the
match ended in a 5-1 victory for
the Saints.

PLACING arrow
In an interview with Coach
Hans, before the game, he
stated that for the first time
this year, the team was
beginning to play freely and
consistently through the
entire line. The team had
played hand in hand since
the beginning of the season,
and Coach Hans's estimation led
the team to a successful
campaign of goals.

Several of the new men
were brought in to play in
their first match, and
Coach Hans was happy to see
them perform well.

White appeared to do well in
his new position and the coach
announced him to be a lower of
strength in the foray line.

Garnius made a spectacular
and difficult stop on a penalty
kick and almost succeeded in
blocking their other goal. One
goal made a good team for
Paul in his new position of left
half back and Reppel played
his usual steady game at center.
The front row had been
improved enormously in regard
to their passing, but were still
struggling to get the ball out of
the forward.

under the supervision of Dr. Wilman. The University of Virginia is called together for organization for the fall season on Monday, Oct. 8, in Students’ Room, about noon. Professor F. W. M. Sturgis, associate professor of English, will make up the group report, including a number of the students and faculty members. The meeting will be in the Union Room by Professor R. M. Naylor, second, and John H. Black, third. Following the afternoon’s adjournment of the Union Room, Dr. Wilman will address the faculty and students on the subject of the future of the University. He will insist on the need for a faculty and student organization in the future, and it is expected that the faculty will take this opportunity to discuss the subject in detail.

The Hofstra Memorial Library has been constantly adding to its collection of books during the past year. The collection has been increased by the addition of over one hundred new volumes, including works by Currents in American Literature, Warburg, F. A. Meissner, and Mr. J. H. Black. The library has also received the recent addition of a number of periodicals, including The Nation, The American Scholar, and The New Republic.

The following is an important notice issued by the college to the students.

To all students, other than Mr. F. A. Meissner and Mr. Arthur Kent, are recognized as students of the college. Other than the aforementioned, no one must be received by the college in any respect to any of the students.

Violation of this regulation, or the attitude toward any of these students, will result in disciplinary action.

(Signed) H. R. Phalen, Provost.

Other than a slight epidemic of light colds practically no sickness has prevailed among college students. Among the athletes, however, several bad ankles and sore toes have developed and temporarily disabled some of the players. Under the present conditions a few serious injuries will be reported.

American's most distinguished dramatic critic, Walter Frisch and E. A. N. E., gave a public lecture here in the Metropolitan Gymnasium on Thursday, October 11, at 8:15. The subject upon which he lectured was "The National Theater," and it was received with great enthusiasm.

Since its founding in 1892, the University of Virginia has been one of the leading institutions of higher learning in the United States. It is a private, coeducational, liberal arts institution located in Charlottesville, Virginia. The university has a long and distinguished history, having been founded by Thomas Jefferson and later brought under the influence of George Washington. It is one of the original 19 member institutions of the Association of American Universities and is ranked among the top 10 universities in the nation. The university offers a wide range of undergraduate and graduate programs in various fields, including arts and sciences, engineering, business, law, and medicine. The university is known for its rigorous academic programs, distinguished faculty, and strong commitment to research. In addition, the university is nationally recognized for its beautiful campus and unique architectural design, which reflects the influence of Jefferson's original plans.

“SAVERIO” — Part II

Nearly every evening we washed down to the sea baths—Padre Basso under his black umbrella. I understand that under nothing at all and covering the bag which contained two bathing suits and half a loaf of bread. In the shade of a palm tree growing from the rock, the parrot called out that he had found another “family” of bread. Saferio would show and demand and interfere with the medical by coming on a little farther into the rocks. Later on the beach and all the other fish rose, with the bread. I believe Saferio’s greatest thrill, however, was the day I brought along my camera and took a snapshot of him standing beside his Parise. It was his first experience of the Tiflis and the way he eyed the machinery recalls those descriptions of the Indians’ first sight of fire-arms.

In the shallows water near the shore, sitting on the rocks, the salt-cured fish was sold for a bit of dough on a string while Saferio eagerly waited for the shell fish and potatoes which Padre and I gathered among the rocks and turned to him. When the parrot called that he had found another “family” of bread, Saferio would show and demand and interfere with the medical by coming on a little farther into the rocks. Later on the beach and all the other fish rose, with the bread. I believe Saferio’s greatest thrill, however, was the day I brought along my camera and took a snapshot of him standing beside his Parise. It was his first experience of the Tiflis and the way he eyed the machinery recalls those descriptions of the Indians’ first sight of fire-arms.

Saverio’s enthusiasm for action permitted to culminate in his service at the altar. A novena of the Madonna della Grazie was in progress in the little chapel, and I had ample chance for observation at first hand. It was the usual homage of Padre Basso that included the holy water, holy bread and holy oil.

The question of the season, as usual, was whether or not to grow a mustache. If so, it was in college. In the case of Mr. Mulligan, he decided to do so. His bare feet now thrust through Moisture Proof Cellophane. He was happy. His bare feet now thrust through Moisture Proof Cellophane. He was happy.
