Number 1

### **Dr. Tewksbury Commences** Work At Saint Stephen's

**Rev.** Miles L. Yates Appointed Chaplain; Four Others **Assume Positions** 

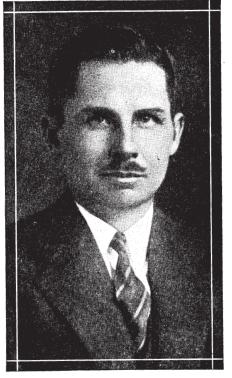

On May 26, 1933, President Butler nominated Donald George Tewksbury, B.A., M.A., Ph.D., then Associate Professor of Education at Columbia University, to be Acting Dean of the Faculty of St. Stephen's College for one year from July 1, 1933. The Trustees of the College promptly elected Dean Tewksbury on this nomination, and he made his home at Annandale on the 1st of July, last.

Professor Tewksbury was a member of the Committee of Nine appointed by Dr. Butler early last winter to study the administrative and educational problems of St. Stephen's and so already has a fund of information regarding the work which

he is called upon to administer. He was born in Peiping, China, in 1894, and was educated there and in the United States. He was married to Miss Helen Taylor Plumb. of Bridgeport, Conn., in 1921, and has one son.

varied experience in educational administration. After spending two years at Oberlin College, Ohio, he was graduated from Columbia College with the class of 1920, and proceeded to take his Master of Arts degree the following year. From 1922 to 1927 he was Assistant Professor and Registrar at Yenching University, Peiping,China, and while there, and later in Nanking, he made a special study of Chinese language and culture. In 1932 he was awarded the degree of Doctor of Philosophy by Columbia University

In addition to being associate trate the superior defense of the and Culture at Sarah Lawrence gave their opponents a battle yard College, Bronxville, New York. ### From The Dean

It is a source of real gratification to all members of the college community that the Lyre Tree renews its publication with this issue. An able and constructive student paper will contribute immeasurably to the welfare of the college. As a medium for the expression of student opinion, it will reflect the interests and ideals of the student body. As an organ of responsible leadership, it will help shape the future of the institution. The Editors of the Lyre Tree are to be congratulated upon their initiative and resourcefulness in meeting the challenge of a new opportunity.

### **Chapel Attendance Rule Is Modified**

#### Adjusted Program Effected **By Dean and Trustees**

student attendance at chapel services at St. Stephen's College was elmann and Mr. Corti, Modern announced last week by Dean Donald G. Tewksbury and Chaplain Miles Lowell Yates, after they had spent much time in consideration of the plan of religious observance, which has been in effect at the college in the past.

The purpose of the change and the reasons for the same, which went into effect on October 9, are explained in the following statement issued from the Dean's Office:

"In order to provide a program of religious observances which will eam played the Williams eleven secure a balance between expected and voluntary attendance, and at the same time continue the essential features of the long and honored tradition of the college, three services will be designated from among the regular services held each week as religious exercises having a special claim to general community observance. This adjusted program for 1933-34 was formulated with the concurrent approval of the Dean and the Committee of Seven of the Board lecture at St. Stephen's College on of Trustees, after conference with St. Stephen's has, since 1928, lec- ministered by the Purple in the members of the faculty and of the student body. It becomes effective Monday, October 9, 1933.

"I. Attendance of the whole college at:

### St. Stephen's Makes Change In Classics Requirements

**102 Men Register** For Opening Term

### Much Activity On Campus | Two New Courses Offered **In First Few Weeks**

St. Stephen's College opened its doors for the academic year 1933-1934 with one hundred and two students. Forty-six new men enrolled. The Student Body is larger than planned for in the budget drawn up by the Board of the Trustees and beyond the expectations of the committees on entrances.

The following professors constitute the faculty for the year: Dr. Donald G. Tewksbury, Associate Professor of Education and Acting Dean of the Faculty; Dr. Upton, Registrar, and Mr. Voorhees, English; Drs. Phalen and Garabedian, Mathematics; Drs. Flournoy and A radical change in the policy of Smith, History; Dr. Davidson, Latin; Dr. Harry, Greek; Dr. Krump-Languages; Dr. Edwards, Economics and Social Sciences; Dr. Yates, Chaplain of the College and Professor of Religion; Mr. Mauzey, Philosophy and Psychology; Dr. Obreshkove, Biology; Dr. Sottery, Chemistry; and Mr. Leeke, Physical Education. Among the staff

N.R.A.Is Stirring

### **Students With Appropriate Background May Drop**

**Ancient Languages** 

### In Drama and Music

Traditional Latin and Greek requirements for graduation have been dropped at St. Stephen's College, long one of the most rigid American classical colleges. Beginning this year students entering the college with appropriate background in the ancient languages will not be required to take further courses in Latin and Greek.

This change in policy, effected by the trustees of St. Stephen's. does not lessen the opportunities offered the student in the field of classical languages. Courses in Greek and Latin will continue to be offered to all students desirous of electing the same. Students preparing for certain professions, moreover, will still wish to take a full program in the classical subjects.

New courses will be given in musical appreciation, the interpretation of poetry, classical civilization, modern economic problems, and far eastern civilization and culture. In addition, arrangements have been made for elective work in dramatics, in the practical arts, in choral and instrumental music and in the graphic arts, under the supervision of resident and invited instructors.

The course in dramatics embraces a broad field touching upon nearly all of the creative and practical arts. Educational leaders realize that such a course has an appeal from the literary point of view and that of self expression.

The National Recovery Act of Many colleges have come to realize that there is a force at he Roosevelt Administration is stirring up movements among work which necessitates the ad-American students, long almost mission of a course of this character in the college curriculum. indifferent toward politics and national affairs, Governor William A. #### THE LYRE TREE

The Lyre Tree appears here in organized form for the first time in over a year. Financial troubles and a general lack of interest in the paper caused a suspension of publication during the last college year except for one issue. Last spring an editorial and business board was chosen from students interested in seeing an undergraduate publication at St. Stephen's again make its appearance. There are many reasons why we would like to see the Lyre Tree put out at regular intervals during the year. One is that a periodical deserves and should be a feature of the extra curricula work of the undergraduate body in any college. It is the means by whch the students can express themselves concerning the affairs of their institution. Another is the college needs a newspaper. One of the chief purposes of the new board in their efforts to make the Lyre Tree a success is to carry outside the college, and especially to the Alumni, news of interest of the college which they would not be likely to receive except through these columns. We know that there must be many who have gone forth from this place who are somewhat out of touch with their alma mater. It is for them that we resume publication. St. Stephen's wants to keep the help and interest of her alumni. We believe the Lyre Tree can aid in keeping that interest alive.

The Lyre Tree has several obstacles in its path which must be overcome to assure its success. At the present time we have only funds enough to bring out this first issue. There are difficulties preventing us from obtaining the kind of advertising which would permit us to work free of financial worry. We are forced, if we are to bring this paper out through the year, to rely on subscriptions. We send this first issue to as many alumni as we are able. We hope that many will care to subscribe at the earliest possible moment in order that we may feel free to go ahead with the plans we have already made. The price is small and our hopes high. How about it?

#### TRADITIONS

The Lyre Tree wishes to extend a welcome to the new men at St. Stephen's and, at the same time, a word of congratulation. We are proud of you; you have given us greater confidence for ourselves and for our college by reason of your making St. Stephen's the college of your choice. You have helped to create a more healthy and spirited tone in an atmosphere that was once, we must confess, quite listless and languidly sentimental. We are happy to have such a group as you cast your lot with ours in the making of a new and finer college.

You have been hearing a great deal of talk about the new deal going on about us. We who have been here before, assure you that It marks the awakening of this community to it is a new deal. the splendid possibilities, never before deemed practical, of a definite type of college. These potentialities are fast becoming realities under the guidance of the present administration of this institution.

St. Stephen's College was founded seventy-three years ago. It is by no means in its adolescent stage. This new atmosphere is not a Cranston School of Music in Kan- ners for St. Stephen's. The results ripening to manhood; it is a revitalization. We still have with us cer-tain traditions and customs of the school which men who have gone churches, often as soloist, and has the prospect for this year's team.

### **Dr. Tewksbury Commences Work**

(Continued from Page One) In Cooperstown, the Rev. M. Yates has been vice-president of the Susan Fenimore Cooper Foundation, and instructor in English and Chaplain of the School.

In 1927 the Rev. Mr. Yates married Miss Marjorie Elinor Fell Marsh at Norwich, England. Mrs. Yates, an associate of the Royal College of Music, London, has been instructor in music in the Knox School, Cooperstown, since 1923. She has studied under John St. O. Dykes, Katherine Ruth Heyman, Katherine Goodson, and under Henriette Michelson of the Julliard School of Music, New York City. Mrs. Yates has done concert work in this country and in England.

In an interview with a Lyre Tree representative, the new Chaplain made the following statement: "I was strongly attracted to St. Stephen's on my first visit in August. I have been genuinely happy in coming as Chaplain, to share in its life and work, and am deeply appreciative of the kind welcome I have received." Further he said, "I am especially impressed and gratified by,

1. The honored place given to Religion in the college-the devotional tone and beautiful music of the chapel services;

2. The broadening of the program for stressing the creative arts;

3. The opportunties offered in tutorial courses for individual study and research along the lines of a man's major interest;

4. The colleges affiliations with a great university like Columbia, which (in my opinion) is likely to lead increasingly to an association and an interchange of unique

value.' In conclusion he said, "I have a

firm belief that great possibilities in the direction of growth and development lie ahead of St. Stephen's, and I feel that the present student body is perhaps going to have the privilege, to an unusual degree, of helping, through enthusiastic loyalty and co-operation to shape a future of which we shall all be proud: mantaining the splendid traditions whose worth has been proved, but advancing always, with widening vision towards an enriching betterment.'

Miss Lilliebelle Barton, the new Bursar, although she has only recently been appointed, has been with the College for the past ten years. She was born in Vineland, New Jersey, but later lived for long periods in Philadelphia, Kansas City, and New York.

Miss Barton also sings, having studied under many teachers, including her father, and at the than Carr and Morell, former run-

of Richard B. Sheridan, namely: "A Trip to Scarborough" and "The Drama". Mr. Fite also performed in plays by Moliere. Mr. Fite has also played at the Madison Play House, Madison, Connecticut. Here he took part in such plays as "The Romantic Young Lady" with Mme. Ouspenskaya, "The Best People", First Volume of Dr. Harry's The Dover Road", and other productions.

Before coming to St. Stephen's, Mr. Fite took part in some of the Operettas of Gilbert and Sullivan at the Guild Theatre in Baltimore. plays besides the two or three mer. main productions, the cast of tire college.

Stephen's, Mr. Blackwell was an es." alumnus representative of the Board of Trustees of the college.

Another new member of the administration, formerly of Wellesley has been appointed to the position of hostess at the college. Miss Wilkin has travelled a great deal. During the post-war period of reconstruction, she spent two years in Germany where she worked as librarian in the American Hospital.

### **Red Hook Defeats**

**Freshman Harriers** 

The Red Hook High School cross country team visited St. Stephen's College to take the long end of the verdict from the freshmen of that institution on October 1. The final result was 27-28. The individual winner was Bill Snyder, lanky freshman harrier who negotiated the distance of two miles in the fast time of twelve minutes and seven seconds. Closely following him was Ralph Drogula, also of the home team and winner of Class C in last year's interscholastic meet, who traversed the course in twelve minutes and thirteen seconds. Both of these men broke the former record of twelve minutes and thirty seconds for this distance held by Lloyd Bell, a former captain of the St. Stephen's team. Snyder ran a beautiful race to do this by finishing with a strong sprint at the end, with which Drogula was unable to cope. Chappell also ran a nice race covering the distance in better time

## **Columbia U. Issues** "Greek Tragedy"

## Work Well Received

The first volume of "Greek Tragedy: emendations, interpretations, and critical notes," by Dr. Mr. Fite is working very hard at Joseph E. In this study "Dr. Harry asserts that there are at least 40,000 errors in modern editions of Greek tragedy that merely 'befuddle the College, is Miss Helen Wilkin who brains and obfuscate the intellects of cur students,' and which must be cleared up," says the New York Herald Tribune. "The fault lies," Dr. Harry says, "with the eminent editors who have substituted some of their own suppositions in the more difficult passages." The Albany Knickerbocker Press commenting on Dr. Harry's work, says "there are not half a dozen men in the world today from whose hand these volumes of emendations, interpretations and critical notes could have come."

> Dr. Albert Jay Nock, '92 and formerly of the History Department of St. Stephen's, recently said in a letter to Dr. Harry: "Perhaps I may, with the rest of the unlearned, express our appreciation of the labours which have cleared our way to a better understanding of the great dramatists. To know them is to love them, and by enabling us to know them better, you enable us to love them more; and I think that no reward would be more acceptable to you than this. Your volume shall be my constant companion and guide in my readings."

The second volume of Dr. Harry's work is ready for the press and will be half as large again as the first, inasmuch as the number of extant plays of Euripides is greater than those of Aeschylus and Sophocles combined.
