Review Of The Year 1933-1934
Representative Council Proposed; Fraternity Policies Abolished

To Choose Governing Body From Three Classes

The undergraduate body of St. Stephen's College voted by a large majority, May 11, to adopt the new constitution drawn up by the Committee of Eight in consequence of the recent movement for a change in government.

The main object of this constitution is to abolish fraternity policy and establish representative administration. It calls for a Student Council consisting of eight members from each class, four of whom will be Seniors, four from the Sophomore class, and four from the Junior class. Each class will be further divided into two social and two academic groups, each of which will elect a delegate to the Junior and Senior classes, respectively.

The meetings of the Student Council will be held on the second Tuesday of each month, and all students are expected to attend.

Many guests expected to be present Friday Class of '34

Many guests, alumni, members of the faculty and alumni students are expected to be present Friday night, May 15, when the Senior Dance will be given by the Convent and the Juniors in memory of those who will graduate from St. Stephen's.

The ball will be symbolically decorated in black and silver by the Juniors, and will be accompanied by special music provided by the Sophomore orchestra. The ballroom will be decorated with Japanese lanterns, and will be illuminated by the Junior illuminated lanterns. A group of Hawaiian musicians will entertain the guests, and the orchestras will be carried by the orchestra, whose unique entertainment will be known as the Best.

The list of patrons and sponsors of the dance includes: Dean and Mrs. Donald G. Tewksbury, the Rev. W. T. Mantia, and Mrs. Mantia, Dr. and Mrs. Stephen G. Williams, the Rev. and Mrs. David H. Clarkson, Dr. and Mrs. Edwin T. Cupton; Dr. and Mrs. Harold H. Phelan; Dr. and Mrs. Albert H. Best; and Dr. and Mrs. Albert E. Best. The program of the dance for the dancers are: Messrs. Robert K. Kendall, Jr., Frank Dury; Dr. Harry A. Best; and W. Van Kirk.

Nine and Tennis Team Open Season

In preparing for the season, the Nine and Tennis team has been training for several weeks. The team is said to be in fine form and will be ready to meet any opposition they may face.

Both Aggregations Yet To Secure Wins

The St. Stephen's baseball team, which opened its season in the Red Hook field, Red Hook, on April 27, when it came to the Hamilton College nine by a score of 13 to 3, was defeated in a game with Brother Dewey, Dewey, on May 8, while the reunion with Union College, which took place on May 9, saw the lather's home field, ended in defeat for the team, 15-0.

Freshman was starting pitcher for St. Stephen's in the opening game. He was relieved in the fifth inning by Sophomore and eight hits and a score to be scored. The team was defeated in the follow-up by the southern section of the Union College, which took place on May 9, saw the lather's home field, ended in defeat for the team, 15-0.

Dr. Abbot Smith To Write Life of James Madison

Dr. Abbot Smith, instructor in philosophy at the University of Virginia, has been appointed to write the life of James Madison. The appointment will be made after a thorough investigation of the candidate's qualifications, which will be reported to the Board of Trustees.

Other College Events

Several important events are scheduled for the next few weeks, including a special concert for the benefit of the college and a guest appearance by the college orchestra in the Student Recreation Room.

College Relates Religious Practices

Revised Charter Preserves Influence

The new educational program adopted by the college will provide for a closer relationship between students and faculty, and will be designed to enrich the educational experience.

Work in Other Fields

It will be expected that students will be expected to be able to explore the other fields of study that they may choose. This will be facilitated by the new educational program, which will provide for a more flexible curriculum and will allow students to choose their own courses of study.

Personalized Teaching and Learning To Be Featured

The new educational program adopted by the college will provide for a more personalized and interactive learning experience, with each student being able to design a course of study that suits their individual needs and interests.

Students Will Plan Own Program in Task of Self Education

The new educational program adopted by the college will provide for a more personalized and interactive learning experience, with each student being able to design a course of study that suits their individual needs and interests.

Self Education and Personal Responsibility

Individual Responsibility Basis of Revised Curriculum

The new educational program adopted by the college will provide for a more personalized and interactive learning experience, with each student being able to design a course of study that suits their individual needs and interests.

Student Convocation To Be Held

The Student Convocation will be held on May 15, to coincide with the Senior Dance. The program will include a special address by the college's president, who will outline the new educational program and discuss the importance of student involvement in the decision-making process.

With the printing of this issue the Lyre Tree suspends publication for this college year. We are more than pleased that we have been able to carry out the publication hopes which we held at the time this resuscitated organ of a regal majesty they saw. The hope that the paper might be able to continue existence and appear regularly in the future was a daring one coming among the messes with which, and the circumstances under which we began work. At this time we express our thanks to all those who made it possible that the Lyre Tree might fulfill the promise of the Student Convocation whose financial support made this venture possible; secondly, to the president of the board of education who in the development of this paper was of great significance to us; thirdly, to our workers and subscribers whose help and suggestions were of great value, and whose bearing of our many handicaps must have been at times, more than trying; last, but not least, we wish to express our appreciation to the administration of the college for its whole-hearted support of the Lyre Tree and the freedom of expression which was allowed to the editorial department.

Before we go, a word from the office door slammed shut for the last time in three months we do find it necessary, however, to make another appeal on our own behalf. It is our hope that this paper will become an established part of the life at the college. Only strong support by the alumni for whom this journal was resurrected, and those interested in the college, can make this hope a realization. Our financial situation at the beginning of next year will be little improved over the condition which forced us last September. We are none too satisfied with what we have been able to accomplish this past year; our plans for expansion and improvement were too outweighed by handicaps. So again we ask the alumni to make the Lyre Tree the means by which they may keep in touch with the college and in order that we may make it a large part of our business to cater to them.

And now, with thanks again to all those to whom we are indebted, we place the end mark on our editorial endeavors for the current year.

The New College Program

The approval of the new program for St. Stephen's College by the Board of Trustees is a welcome piece of news to all those interested in the further development of Columbia's residential college for men. Not only is the adoption of such a plan, as has been drawn up for the Board of Trustees is a welcome piece of news to all those interested in the further development of Columbia's residential college for men.

Adoption of the New Constitution

We were pleased to see the new Constitution for Student Government at St. Stephen's College passed by a vote of undergraduate graduates, and old constitution was out of date and no longer fit for the use, was drawn up at a time when conditions on campus were different from the one we are today, and contained a number of measures which have been repealed by the present administration. The Constitution was adopted by the president of Convocation, which drew up the new constitution, and the present administration, which, after the two plans for consideration which should eliminate all the major and minor changes contained in the "old constitution." A representative government and student council will be chosen for next year, and that the student council is to be chosen by the underclassmen, and all the problems and controversies which will arise. A more thorough backing of the governing body of the undergraduates should result from the adoption of this bill.

College To Re-organize Extra-Curricular Activities

Believing that the best route to education is through some interest and individual initiative, and that extra-curricular activities should be a vital element in the main course of a sound educational program, the college intends to give extra-curricular activities, as well as the curricular, a prominent place in the curriculum, and the college to give extra-curricular activities, as well as the curricular, a prominent place in the curriculum. While down on earth, men crouch-governing body of the undergraduates should result from the adoption of the new frame for student government, as well as the curricular, a prominent place in the curriculum. A more thorough backing of the governing body of the undergraduates should result from the adoption of the new frame for student government, as well as the curricular, a prominent place in the curriculum.
College Program Aims To Build On Student Abilities

Program of Studies To Be Worked Out With Each Individual

The task of the new educational program is to discover and direct to the best advantage the interests and abilities of students, Dean Donald O. Trexler writes in an outline of the new program.

The new educational program for the College is based on the principle that the student's approach to his college should be made through the individual abilities, interests, and purposes which he has discovered and demonstrated during the years of his own educational experience; (2) these motivating principles in the life of the individual should be the center around which he should proceed to prepare his own curriculum; and (3) his college should be the means of extending interests and enabling the student to fulfill himself in a broad cultural outlook.

The college will fulfill these motivating forces in the life of the student. It will be possible to develop a program of studies for each student that possesses raison d'être and meaning and will be centered around the lines of expanding interest and encouragement given shall be directed in a broad cultural outlook.

By utilizing these motivating forces in the life of the student, it will be possible to develop a program of studies for each student. Such a program can lead the student to progress steadily along the line of interest to the ultimate attainment of his lifelong objectives.

The educational program proposed is based on the general thesis that a broad college education is a progressive achievement, involving growth and change during the early years of college. The proposed educational program will lead to an initial acquisition to be gained through the taking of a specific series of "required subjects" or a comprehensive array of knowledge at the beginning of one's college course.

While adequate provision is made for self-government in various fields during the Freshman year, the general survey courses organized as interdepartmental electives will be appropriately taken at the end of college. Such courses will serve as the nucleus for the student's program of studies.

Open the Season

(Continued from Page One)

Burgevin hit for the home team, while Milham and White were outstanding for the visitors. Extra base hits were secured by Molynex, who connected for a two base hit in the third inning, and by Hardying of Hamilton, who singled a homer in the first inning. In spite of the named were the only errors, while Hamilton made but one misplay.

The game with the strong Union team at Union Field was easily won by the home team when Griswold, sophomore moundman of the Unionites, shut out the visitors, which was secured in seven innings. The final score being five to four.

Succeeding matches with the Brothers were strong on the defensive in their outfield positions. But one misplay. The contest with Drew University, at the latter’s Doubles matches, Poughkeepsie also swept through all the doubles. The return match with the Kingston Tennis Club at Annandale on May 12 ended in a 9 to 8 victory for the visitors. Kent, Smyth, Burgevin, LeFever, Clarke and Joseph played the individual contests for the Saints in the singles while Kent, Bush, Le Fever and Clarke were defeated in their singles matches. Poughkeepsie also swept the three doubles contests.

THE LYRE TREE

Poetry and Such

Open Wide, O Ye Gates

I told her I loved her in all ways I knew.
And some were exceedingly clever;
I promised to be always faithful and true;
But she signed her letters—"As Ever."
My eyes and advances were not at all new,
But she mocked my earnest endeavor—
She flatly refused to interpret the cue,
And still signed her letters—"As Ever."
I realized that something had gone far averse;
I vowed all relations to sever,
I found a new girl—the story is through.
For now I'm as happy—As Ever.

--Geo.

Here's why—Luckies do not dry out

why—Luckies are All-Ways kind to your throat

The difference between cigarettes is the difference between what goes into them and how they are put together.

Luckies use only the clean, center leave, for these are the mildest leaves—they taste better. That’s why farmers are paid higher prices for them. And Luckies get the benefit of the famous process—"It’s toasted!"—for your throat protection.

And every Lucky is round, firm and fully packed. That’s why Luckies "keep in condition"—that’s why you’ll find that Luckies do not dry out—an important point in every smoke. Yes, Luckies are always in all-ways kind to your throat.

"It’s toasted"

✓ Luckies are all-ways kind to your throat

REVIEW OF THE YEAR 1933-1934

103 students became them forty-six new men, registered for the first time, and of the college's 135 members on September 22. Dr. Donald O. Tewksbury had already begun his work as Acting Dean of the Faculty, and Latin and Greek were dropped by the college as requiremen-nt classes.

The first semester was formally opened on October 10, with the regular Chapel service at 8:30 A.M. The Hon. William A., Sweet, former governor of New York, lectured to the college on the N. R. A. on October 4.

The St. Stephen's soccer team played the Williams eleven to a scoreless tie on Zabriskie Field on October 4. The college Chapel attendance rule was modified by the administration on October 9 to provide a program of religious observance which would secure a balance between expected and voluntary at- tendance.

The first meeting of the Con- vocation of Old Students was held in Hegeman Theater on October 19, to discuss the year's budget.

Mr. W. M. Smith '27 won the tennis tournament on October 20 to be the first Freshman ever to take the event.

The first issue of the reorganized Lyre Tree appeared on October 14.

Fourty members were officially enrolled as members of the college in the matriculation ceremony held in the Chapel on November 1.

The Pawling High School bat- ters won the Jeugend Trophy in the second annual Mid-Hudson Inter- scholastic Cross-Country Meet held at the college on November 4.

The soccer team, ending in two losses, fell on November 11, to the then nation's leaders, with a one victory, four defeats and one tie.

The basketball team was led by the three seniors who were given the honor of attendance on November 11 before the Holy Crosses.

Fourty guests attended the Junior Prom of the Class of 1935 on November 17.

Fraternity parties were given on November 12 by the gentlewomen of the residence halls.

The basketball team opened its season at home on December 8 with a 44-39 victory over Drexel University.

Dr. Carl A. Garishan opened his series of Sunday evening organ recitals in the Chapel on December 10.

The Rev. James Huntington ad- dressed the pre-ministerial group.

The Gamma Alpha Epsilon initiated six of their pledges on December 11.

Martin Goldberg was elected on December 17 to the varsity 1934 soccer team.

The annual Christmas carol ser- vice in the Chapel was followed on December 21 by the annual Christmas service in the Memorial Chapel on December 19. The annual Buffalo home football game was defeated by the Duquesne University, 12-0, which the celebrated prestigia- tion and the year's first victory for the college.

The Christmas recess began at 12:30 P. M., December 26. The recess began at 8:30 A. M. January 3.

The annual Christmas service at 8:30 A. M. December 27. The Kappa Gamma Chi and Eustace Elenian held special- ized Christmas observance.

The Kappa Gamma Chi and Eustace Elenian held special- ized Christmas observance.

The mid-year examinations be- gan on January 25 and extended through February 1.

Michael Stillman ’36 was drowned in a swimming pool while trying to cross the Hudson River on the ice. The annual Christmas carol service held in the Chapel at 8:30 A. M. on December 27. The second semester opened at 8:30 A. M. on February 5.

Forty couples participated in the eleventh annual Freshman Frolic, held in the gymnasium on February 2.

The Lyre Tree, in the issue appearing February 15, called for a changed type of student govern- ment and presented a plan for that government.

Rehearsals began on February 19 for the first play to be put on by the new Production Group. Mr. W. Phillips Shattuck and Mr. W. L. Wood, who directed the The- ateric Theater on March 5 in the unique style of regional planning in the metropolitan area. The Politen Club was organized and drew up its rules.

The basketball team lost to Wagner on March 10, thus ending the season with four victories and seven defeats.

The Laboratory Theater, built by the students of the new course in biology, was formally opened March 23, with three one-act plays.

Spring recess began at 12:30 P. M. May 26. Spring recess ended at 8:30 A. M. June 4.

The first motion-pictures in the College, emphasis will be placed in the educational program. The college should now receive largely from the general Episcopal constituenc- y.

The cross country team ended hearty enthusiasm over the pro- gress of regional planning in the metropolitan area. In closing, Dr. Tewksbury referred to that such action would be a great contribu- tion to the college.
