The National Student League, a militant student organization, is seeking to involve men and women in America against imperialism. The league is supported by the N. S. L. and the Student League for Industrial Democracy, which is promoting the demonstration. The league holds that the college anti-war movement is the best trend of the century. This organization was born in the minds of the men who have been the mainstay of the college anti-war strike on April 15. In the April issue of "The Student Review," the league states "The strike front must have a clear and logical program of action, and a basis for that program, if it is to be formulated in the college community." 

United Front Against War and Fascism Urged by Militant Group

The first formal outdoor baseball practice of the 1935 season was held at the University of Pennsylvania yesterday (April 15). An encouraging turnout, including students, faculty, and alumni, gathered to witness the beginning of the 1935 season. Although it is much too early to make any forecasts for the season, Coach Ackerman feels that there is a promising future for the team. He is especially interested in the development of two new freshmen, who have shown great potential for the team.

The name Columbia was taken from a document by the name of being Vol. LVIII-No. 107 it was marked Vol. I-No. 1. The staff believed that it was possible for the newspaper to appear with a minimum of difficulty with the problem of the impression at the last fall. The revised sections will make the constitution much more satisfactory.

The Constitutional Amendments and the Council
The action of the student body in passing the amendments to the constitution of the Convocation of Undergraduates, calling for installation Board, and in endorsing the action of a smooth school at the beginning of the next academic year. With a bit of experience in running student affairs I believe that the council members ought to be able to cope with a minimum of difficulty with the problem of the impression at the last fall. The revised sections will make the constitution much more satisfactory.

A Student Anti-War Movement

Such unity of purpose will be a powerful weapon in the hands of the student workers. All students will act as suitable individuals during the war. This practice is nonsensical. The book could easily be finished and ready to hand. Give an account of the first year, the council having to touch it on his vacation. Also the handbook should be a self-supporting

This selection when well made will not be changed, nor submit substitution. The use of the course will be carried by the students at the rate of a fee of one dollar which the student will be asked to pay at the beginning of the course in expression of good faith and the intention of working with the pulling unit for the remainder of the term.
