The Reconsideration of Keynesian Economics

by

Hyman P. Minsky
Washington University, St. Louis

A talk prepared for the 1970 Conference of the British Association of University Teachers of Economics, Queens University, Belfast

Tuesday April 7, 1970.

Harry, I'd really appreciate your comments. I'm not very surprised you are shaky drawing on theory's behalf, but you don't really make clear what the essential difference is between your model and the one you are attacking, and you spend a lot of time on formal model-building, many with named building blocks.
