Chapter II

Comment:
HUGE (very large), not HUGH.

p3 P2 li 2 (text p.4) fill in the blank.
Also, did I pick up the right section?

NOTE: The "other" Chapter II wrote out percent.

In this chapter you use % Should be consistent throughout.

p5 li 8 (text p.6) last line ~~of~~ of draft omitted - it was not clear whether in or out.

p.8 li 7 (text p.12) suggest removal of commas October 1973 to October 1974

p.8^{P2} li 7 (text p.12) Earlier references were written as GNP rather than G.N.P.; ~~I think~~ (see typed copy of "other Ch. II, p.14 li 13)

p9 li 4 from bottom (text p.13) is "by" the correct word here? "... rather by the"

p12 li 1-2 (text p.18) was this sentence in or out?

p.14 P2 li 5 (text p.21) fill in blank

p16 P3 first sentence (text p.22) something is missing - doesn't make sense.

p19 li 4-7 (text p.25) first two sentences of P are somewhat unclear. (to me, a non-economist). OK

p20 li 8-9 (text p.27) I'm confused as to meaning - was there a typo that may have slipped by?

P2 li 3 (text p.27) shouldn't Grants in Aid

I don't know - by hyperated? (also li from bottom)

p.16 ff. You capitalize "gross national product", "grants-in-aid", "state and local government", etc. Was this for emphasis, or should it be changed?

p 24 li 3 from bottom (text p 31) should "purchases"
be "purchased"? yes

p 36 li 10 (text p 42) should it be "investments depend"
or "investment depends"?

p. 37 li 9ff (text p 43) check the continuity - I'm
not sure I picked up correctly.

p 40 li 11 (text p 47) sentence is not clear.

Should the first word, "In", be deleted?

p. 43 last li 11 (text p 50) Shouldn't it be "is 'undone'?"

p 43 42 li 1 (text p 50) how about changing to read:
"Table B (p.) exhibits the ..."

p 47 li 6 (text p 54) believe it should be a colon
rather than semicolon - although you(?)
changed it from a colon. OK

p 48 li 9 from bottom (text p 55) did you
intend to say: "this constraint is not
only on income ... " ?

yes
only
