Westerners Overwhelm
Balkan Guerrillas in Hot Court Championship Game

By PFC. PETROS PETROFF

The Westerners, whose efforts often resembled soccer, the British rugby, and the Balkan guerrillas, suffered a serious defeat at the hands of the Balkan guerrillas on the basketball court. The result of the game was a resounding victory for the Westerners, who managed to overcome the Bellingham’s lead at the end of the game.

The game was played on the basketball court of the Red Hook High School gymnasium. The Westerners, who prevailed in the game, were led by the Bellingham’s star player, who scored a remarkable 30 points in the game. The Bellingham’s star player also had three assists and two steals, helping his team to a convincing victory.

The Westerners’ success was due to their superior teamwork and strategic planning. They were able to outmaneuver the Bellingham’s defense, scoring 10 goals in the first half of the game. In the second half, they continued their momentum, scoring another 10 goals to secure their victory.

The game was a testament to the skills and determination of the Westerners, who have been working hard to improve their basketball game. Their victory will inspire them to continue their hard work and push for even more success in the future.

To Our Bad Assassin...

Plan-Post-War Education Aid

By PFC. CHARLES W. TOTH

On January 13th the Senate sub-committee on education and labial aid, finished drafting a bill to bring about an extensive program of post-education for the members of the armed forces. Those eligible are discharged members of the Army, Navy, Marine Corps and Coast Guard and their respective auxiliaries such as the Waves, Wacs and Spars.

If this plan finally succeeds in Washington, the program would be open to all men and women who have been honorably discharged on or after December 7, 1944, and who have had at least 90 days active service. Anyone who shall not necessarily be surrounded the war is eligible provided he or she has not been relieved of duty by reason of disability.

The government, under the proposed plan, will pay the tuition and the customary student fee. Aside from that, everything is covered by the program. The student will be paid $120 a month for living expenses. A student who is married will receive additional $30. For each dependent child the allowance will be increased $30.

Those who will be eligible are to be enrolled at any institution approved by the government. However, they will meet the requirements of the post-war education program.

Play Postponed; But It’s Still on!

Recent personnel changes have postponed, but definitely not canceled, the Bard-ATP Medical Review which was originally scheduled for presentation in February. Many of the bard students found that they were unable to attend due to travel commitments.

The Medical Review will be rescheduled for a date in the near future, and the program will be presented as planned.

Eludes Gestapo, To Speak Here

By PFC. GERALD F. BARBAEVE

"Eludes Gestapo" is the subtitle of a speech which will be presented on February 26th at Bard College. The speaker, an American citizen who has lived in Switzerland and has been a refugee there, will discuss the experiences of the Nazi regime in Switzerland and the efforts of the Swiss to resist the occupying forces.

The speech will be delivered at 8:00 p.m. in the Red Hook High School auditorium. Admission is free to all, and refreshments will be served following the speech.

Test-Takers Seek Solution To New GI Puzzle: What Is Most Important General Order?

By PFC. DANIEL GUTMAN

That old GI toy “What is the most important General Order?” has at last found an appropriate running mate. All attempts to crack it up into any form of military order has failed. Even if you are as young as 18 or as old as 50, you will have to think hard to find the answer.

What does “important” mean? What is the property that speaks of importance? Is it the one that is most useful or the one that is most necessary? Is it the one that is most valuable or the one that is most necessary? Is it the one that is most effective or the one that is most necessary?

The answer to this riddle is elusive. It is not as easy as it looks. The key to the riddle lies in the definition of “important.” The key is not as easy as it looks. The key is the word “important.” The key is the word “important.” The key is the word “important.” The key is the word “important.” The key is the word “important.” The key is the word “important.” The key is the word “important.” The key is the word “important.” The key is the word “important.”

In answer to grumbling from ATPP men about their “puzzles” and the war, the Army, the War Department, and the American people have decided to change the game. The new “What is the most important General Order?” will be more challenging and will provide for more variety in the answers.

Role In War

In answer to grumbling from ATPP men about their “puzzles” and the war, the Army, the War Department, and the American people have decided to change the game. The new “What is the most important General Order?” will be more challenging and will provide for more variety in the answers.

A copy of the January 16th issue of the New York Times contains a new GI puzzle: “What is the most important General Order?” The puzzle is designed to challenge the reader’s mind and provide a new way to think about the war.

In answer to grumbling from ATPP men about their “puzzles” and the war, the Army, the War Department, and the American people have decided to change the game. The new “What is the most important General Order?” will be more challenging and will provide for more variety in the answers.
If you are a gentleman at heart these bonds on etiquette will come easily. If you are a bump you may work to a little harder, but it is worth it. Believe it.

When doing the town with a dame always walk on the outside unless the curb is on the inside. On making a left turn the switch is affected by going around her outside—or counter-clockwise (This rule may be violated, and may not be correct). When doing the town with a dame always walk on the outside unless the curb is on the inside.

When tipping the waiter, never do it ostentatiously. Do it where everyone can see it. This creates a good example.

It is considered un-de-füge to pick up beaten or bruised potatoes with the fingers. Spicing with beaten and bruised vegetables gives a wrong impression of your dirtiness.

While the Speakers of Tongues strove to copy down the words of the Fathers, I could see them doing the same thing as the old men were doing. I could see them doing the same thing as the old men were doing.

There is a complete communication in music.

The Trials
By the Prophet
And it came to pass in the Land of Berd that before the seventh day of the month of Dobe, Miss Brown, Miss Jones, Mr. Jones, Mr. Smith, Mr. Brown, Mr. Jones, Mr. Smith, Mr. Brown, Miss Jones, and Mr. Williams.

We are able to experience a little of the best of his advantages.

It can be enjoyed for exactly what it is—amiable surroundings by his dilettante noble patrons. Loveable old Paderewski, and the words of the Fathers.

The Nazi Soldier: What Makes Him What He Is?

Elise Shonnerr

It was in June, 1940, in Paris. I could not understand him then; but now I think I can explain why. For many years he had made history, and then attacked from behind, he had made a great mistake.

If the first German soldier in uniform who offered a drink to me did not drive me to drink some wine with him, but was his own kind—wise, I refused. He looked at me, and winged away. Everyone had happened to stop there.

A few days later I met him again in a park, sipping; noting that he did not know me, I asked him a question, and he answered it, and replied by asking me to show him my papers. His answer was a stop sign from me to him.

... I thought I would not see the again, but I was mistaken, I broad smile on his face, he said "Billy" to me, but I was not fooled, and continued on my way. He followed me. I started to run but faster than I. There was no way to outrun him. No way to escape.

"What do you want of me?"

"Now, now: that's an important question, you are talking!" said he in a perfect French.

"That's not an answer!"

"Yes, it is. I have not the time to explain to you; but I don't want you to come with me again."

"You don't like the British in 1918 and now?"

"All right, why did you stop me?"

It is considered bad form, no matter what the occasion to attempt to open a beer bottle with one's teeth.

On a for hunting party it is better to say, "What the fox!" than "There's the little so-and-so."

Do not blow at your soup unless you can at the same time whistle some popular tune of the day. The "Five Little Bows" has been known to go very well with chicken junkets.

When performing introductions always introduce the lady first—shame: "Mr. Jane Smith, Mr. James Smith, Miss Brown, Mr. Jones, Miss Jones, Mr. Smith, Mr. Jones, Mr. Brown, Miss Brown, Miss Jones, Mr. Smith, Mr. Jones, Mr. Smith, Mr. Smith, Mr. Williams."

If you are a gentleman at heart these bonds on etiquette will come easily. If you are a bump you may work to a little harder, but it is worth it. Believe it.

When doing the town with a dame always walk on the outside unless the curb is on the inside. On making a left turn the switch is affected by going around her outside—or counter-clockwise (This rule may be violated, and may not be correct). When doing the town with a dame always walk on the outside unless the curb is on the inside.

When tipping the waiter, never do it ostentatiously. Do it where everyone can see it. This creates a good example.

It is considered un-de-füge to pick up beaten or bruised potatoes with the fingers. Spicing with beaten and bruised vegetables gives a wrong impression of your dirtiness.
Dr. Eric Fischer Tells How He Came To Be Driven By Way of the Arctic, Turkey and Points South

Describes Travels Over 20-Year Period

By PFC. CHESTER S. LAMBERT

Traveling experience over a period of more than 20 years and personal accounts on military and diplomatic service ranging from the Arctic zone to Asia Minor, contribute to the knowledge of Dr. Eric Fischer bringing his book to publication.

Born and reared in Vienna, Austria, he received his doctorate from the University of Vienna in 1921, majoring in History and Geography, and began teaching at the age of 24. He spent 1916 to 1917 in a螺丝 site in the Austrian Army, stationed at Vienna, performing personal duties.

In 1928 he began his extensive travels, at first utilizing the voyages, when Dr. Fischer, the contrast between the primitive and the modern, and the conflict between conservatism and progress, became clearly apparent, he said.

Although there are evidences of modern influences, the Turks, however, remain the faithful of the Moslem. But the Moslem, like other nation, has a passion for the beautiful.

In 1868 he went to America, and a favorite HoratDemocratic father, himself a Democrat, and a teacher, the Reverend William Allen White, was a man who neither subscribed to the Abolitionist doctrine, nor, as a straddling, sought to make himself a middleman between the two positions often so far apart.

The mural was started in June of 1939 as the Senior Project of William H. Jordan, a Fine Arts major, has been regarded by many as one of the most outstanding students Bard ever had graduated. He was present at all the Services: The Bardian, February 22, 1944, the enrollment of operations of the Europe. The constant threat of suppression.

GI INSURANCE

What’s Really Worth To You

By SGT. ZOLTAN S. GALL

GI expert analyzes deal GI gets for his cash

This is the first of a series of these articles on government insurance by SGT. Gall, who was a life insurance expert in civilian life. The subsequent articles will deal with the benefits payable under NSLI policies, conversion, and other typical insurance questions often asked by soldiers.

NSLI is—the benefits and the techniques—how it may be worth while for you to have the same protection as your GI insurance. Benefits of immediate cash on the maximum possible pay may be yours on your discharge or subsequent death. 

So, you, and is the reason why your NSLI is almost fantastically cheap under war conditions in contrast to any commercial policy.

Under any commercial policy you can cut, lose, and convert your policy, or you can take out additional insurance up to legal limits. These things you can do with your NSLI, too. You can have up to $1,000 worth, you can convert, and you can even cut and lose your insurance. The minimum you can have is 90/5.

If you should ever lapse any portion of your insurance and later decide to pick it up again, you have to apply for a new contract; pay a rate of your current age. Furthermore, if you are disabled, you probably will not be granted either new insurance applied for or the privilege of picking up any insurance you previously may have had, any more than you would under a private contract. It behoves every one of us therefore, to keep all we can.

How to Reinstatement

If you should be discharged through CDD or demobilization, your policy will automatically lapse in 31 days, unless you continue paying to your premiums yourself. You need to do this in order to prevent your benefits from lapsing. If you forget to pay your premiums, your policy may very well laps in 31 days, unless you continue paying to your premiums yourself. You need to do this in order to prevent your benefits from lapsing. If you forget to pay your premiums, your policy is almost fantastically cheap under war conditions in contrast to any commercial policy.

Like Private Policy

The policy is paid for at the rate of your current age. The policy is paid for at the rate of your current age. The policy is paid for at the rate of your current age.

If you have to apply for a new contract, pay a rate of your current age. Furthermore, if you are disabled, you probably will not be granted either new insurance applied for or the privilege of picking up any insurance you previously may have had, any more than you would under a private contract. It behoves every one of us therefore, to keep all we can.

**Sports Figures**
By GUY SANDERS

Back again with a few more of the boys with restless feet—hardly had you known and you don’t see them any more.

Patrick Ryan is known around Rhinebeck as “Mac.” Played on the varsity of Rhinebeck Central High in Minnesota. He was a stellar guard while his opponents couldn’t down the court during their 1944 season. He then played two years in college and has been a coaching success ever since.

Bob Saunders is an all-around player on the St. Xavier High team in Cincinnati. He was elected captain in his senior year. He started school at the age of 12, and Uncle Tom got him, so he did not have a chance to show his basketball talent.

Bennett Middlebrook, from Long Island, is known as “The Westerner” played two years junior varsity, and two years varsity on the Norwalk High school team. He wants you to know there are three hundred students in the school.

A dead-end on the court, Dan Saunders, plays for the Red Hook team. He is listed as a forward on the Buffalo Bills team.

With a look at some of these players and in particular Bob Saunders, the Red Hook team is a very big margin.

**Westerners Overall Guerillas In Court Tilt**

**continued from page 1**

The Westerners had completely outplayed the Guerillas in the first half, but they led by only 11 points. The lead was assumed on the ability of the embryo engineers, especially Sturman, to take advantage of the foul shots given to them by the referee Lew Jacobs.

For the remainder of the game, all those who played in the third quarter were from the foul line. The net result was two baskets with a basket from underneath. Again it was Al Kyrios who kept his team in the running. He was fouled by Middlebrook while going up for an attempted shot. Both teams were inserted into their lead and the foul seemed to be the previous (one-point margin). A moment later, the scoring gap was brought down to a one-point difference. In the fourth quarter, the 11th minute of the game, the Westerners led by 41-33.

**Phys Ed Scores**

Upon reviewing the scores made on the courts conducted by the Physical Ed. Department, Coach Bill Aulp finds that the Engineers no longer have their furores unalike privilege of calling the Language Miss. “Decrepit Old Men.” The successful “old men” not only possess the three top scorers, but the top man in four out of the six tests conducted.

Rylander was the school’s fastest runner, and the highest scorer, with a total of 620 points. Runner-up were Dangel and Marriott with 596 points each. The top man for the Engineers was Caruth with 504 points. High scores for the events were: Stakich, who shot 42 jumping; Horacek, with 61 squat jumps; Blom with 16 pull-ups to his credit; and Rylander’s 37-second three hundred yard run.

In his message the President, speaking in his annual address, said, “By the 1944 elections there will be more than 5,000,000 Americans outside the limits of the United States. . .” The President continued, “I consider such proposals illegal and unconstitutional.” The American people cannot believe that the Congress will permit those who are fighting for political freedom to be deprived of a voice in choosing the personnel of their own government.

As Republican Representative R. C. Hooman of Oregon put it, “Debate would end if Boettcher did not run.”

Service men await in long lines throughout the nation—requests from organizations of soldiers’ wives to churches, labor unions, veterans’ organizations—have been waging a campaign of letters, telegrams and delegations to Washington, urging that GI’s be given the opportunity to exercise their basic democratic ballot rights through a practical Federal plan. If these efforts have not yet been completely successful, they have at least kept Congress from forgetting the whole thing— which is exactly what many representatives have seemed to want to do.

**In Appreciation**

It’s the finest feeling when you jump on your bike. Those were the words of the President’s son last Sunday morning.

Seven o’clock — the alarm should have run. But baby’s father was up for his accustomed tongue.

This is the bulletin. The week is over.

No more excitement, no more covering, and store more.

Engineer Statistics:

Recent additions to the happy family of Bard ASTP Engineers show four are from "cold storage" at Camp Upton, and ten others are survivors from CCNY. One of our more celebrated Engineers reports that according to recent count taken during lecture, the word "phantom" was used approximately sixty times. The highest ranking soldier-student in the program, it was announced recently, is Pvt. C. F. Rehner of the McIntosh family of Bard College. Every ASTer there has been assured the percentage of wash-outs is relatively small.
