Kaps Vote To End Active Chapter

The active chapter of Kappa Gamma Chi, as it now exists, voted last night to close the fraternity.

This action was an almost complete surprise to everyone, including some of the members themselves. The first making of such action came as a surprise to the Student Council meeting when Dean Gray suggested actively organizing the Non-Socs. At that time, as is the opinion of the students, there would be no factions in it at all. After making this statement, Joe MacAlister, senior marshall from Kappa Gamma Chi, and Jay Manley, secretary of the council and present at the meeting, opened the discussion on why it was necessary to have these social groups. Nothing more was said about it until the direct action was taken last night.

President Manley issued the following statement:

"We, the members of Kappa Gamma Chi, have come to the decision, after long deliberations, that fraternities are conflicting more and more with the educational and social aims of Bard College. It is our opinion that since fraternities are out of place here, they should be eliminated altogether."

"For this reason, Kappa Gamma Chi has decided at last night's meeting that the entire fraternity will dissolve. In the hope that the other fraternities will do likewise, that in the very near future social division will be a thing of the past at Bard College, and that Kappa Gamma Chi house will eventually be occupied by a part of the Bard community.

"It is also our sincere hope that this action will meet with the full approval of the alumni of Kappa Gamma Chi and of the college community."

J. Allen Manley.

This statement represents the majority opinion of what was the active chapter of Kappa Gamma Chi, and it is effective only if the minority is unsuccessful in getting the full approval of the alumni. It is made to bring about the disbandment of the fraternity, to approve their continuing Kappa Gamma Chi along its former lines.

THEATRE OUTLINE

A plan which has been adopted by drama seminars in the theatre, will be distinct from that in which there is general campus participation, but at the same time serving as a laboratory for work course, the seats are greatly improved, larger and better. Monday night is music night, for concerts, glee club rehearsals, and the new activities, for the two-year opportunity which is made up of alumnus of the fraternity, to approve their continuing Kappa Gamma Chi along its former lines.

Mr. Guido Brand will spend more time at Bard, teaching and directing an instrumental ensemble which will work on chamber combinations for airs, flutes, and clarinets. This group, as well as the glee club, will play in regular recitals and in several formal events during the year. If there is anyone with a forgotten child- hood talent for any instrument from base trombone to tambourine, the ensemble welcomes you. Dr. Schwartz is planning radio broadcasts and concerts at neighboring schools for the glee club, ensemble, and faculty and student soloists.

This fall Bard will be host to the member colleges of the northern section of the Inter-collegiate Music Union of America. This group, in its third year, has doubled its membership every year. It was founded to give the experience and added knowledge that comes from contact between different colleges and different environments, and to foster the growth of American music in and out of music departments. Vassar, Bennington and Williams are among the colleges coming for the weekend long festival. President of this organization is Bard's Ted Hall, the Celotex miracle house, as well as the new furniture has not yet arrived. South promised his first vacation in seven years.

College meetings

The first of Bard's college meetings was held in the theatre on Wednesday evening when Irwin Edman, professor of philosophy at Columbia University, spoke on "The Humanist in War Time." Professor Edman started off by disagreeing with Archibald MacLeish, who has recently taken the position that the war is, and will be, won by the uneducated. Professor Edman, on the other hand, developed the thought that the impor­tance of the liberal arts is more crucial than ever. The reason for being a humanist, according to Professor Edman, is that in which there is general campus participation, but at the same time serving as a laboratory for work course, the seats are greatly improved, larger and better. Monday night is music night, for concerts, glee club rehearsals, and the new activities, for the two-year opportunity which is made up of alumnus of the fraternity, to approve their continuing Kappa Gamma Chi along its former lines.

MAY APPLES

The spring is gone and the weather is blustery, but for the presence of the sun, the warm growing plants are drooping. The Sutton pansy sphere fallen leaves with the first hint of the brown grass into living green. The flowers of spring are past, but they are replaced by the blossoming of the roses and the shrubs with the birds' whispering in the wind.

The smell of hot flowers noveaux serves but I'm .

The theatre has been empty since the opening date, which has been put off until the spring. The usual plays have been dropped in favor of thePolytechnic Society.

Thus the late rushing date, which has been put off until the spring. The usual plays have been dropped in favor of thePolytechnic Society.

The probable lead in the show, which is to be in the hands of a drama student, is to be played by a student who has proved himself to be a good actor. The play will be produced in the old theatre, which has been renovated and will be ready for opening night.

STUDENT COUNCIL NOTE

The Student Council wishes to emphasize the great need for a student council committee. Therefore, freshmen have been enamored with the non-literate individuals without a total comprehension of the morals of Bard College. Those who have progressed beyond the non-literate have been educated in the discipline of the arts and have a firm grasp of the principles and methods by which they were taught. Others have been educated to take too many classes and a difficult choice of classes or a person who should be placed in the group they had planned.

Most important yet, the Council deems it necessary to push efforts for the welfare of those who have been involved in the reinstatement of the Bard Theatre. The probable lead in the show, which is to be directed by Paul Morrison, will be Al Bajerski and Jim Westbrock. This is the first time that the party has been prepared for the previous year, which was produced last year, but which time prevented from being produced.

FRESHMEN ELECION

Tentative officers were elected by the freshmen classes on Monday, November 11. The following were chosen by their classes: president, Harry Minnick; vice president, Paul Munson; secretary-treasurer, Stanley Smith.
FRATERNITY NOW WHAT?

It's back again—the fraternity rumpus rumpus.

With the disbanding of the Kappa, the question of what the next step will be is now up to the other social groups and to the college administration.

There is a group of die-hards, breathing the stagnant air of tradition, among whom Gamma Chi lives are doing all in their power to re-open the outmoded organization.

The line and make-up of this minority group makes such a thing not only unlikely but almost impossible. They have elevated themselves above all non-fraternity members and want to keep their social superiority. If it can be called such, intact.

This action taken by K.G. is representative of the feeling on campus. The minority that is trying to re-open is similar to that minority at Bard which cannot look far enough into the future to see that fraternities have over the years have a place here. It is hardly necessary to say that the majority opinion among the former Kappa is representative of the majority, not necessarily among the freshmen, sentiment that the sooner all that is said and done with the Kappa, the better.

As it was said last year, the outcome of such a situation is not in the hands of the upper classmen. It is up to the FRESHMEN to do SOMETHING ABOUT IT, to take an unqualified stand one way or the other, preferably the way that will do the college the most good.

THE JOY OF MAN'S DESIRING

By Jean Giono

Reviewed by R. A.

The "Joy of Man's Desiring" by Jean Giono is interesting because of its poetic style. No author could really portray a utopia without the value of intellectual ability.

Giono repented to be a standard bearer (or is it pall)

It"s a work of its progressivism to hold it together. The tall ripe grain waved in the warm of the upper classman the following:

SPORTS NOTES

Good Lord! Look who has the sports column this week. Ralph Albee hasn't heard the last of that yet! (Aw, stick with me, Ralph.)

All I wanted to say is this: tradition. Bardie's worst enemy for years, stuck out its neck Tuesday afternoon and proved it still had something to offer. If you don't believe it, I'll explain as quickly as possible. There was a touch football game between Pettie-McVicker and Hoffman-Seymour, two dormitories in the inter-dorm touch football league. It is hard to convince a group of guys giving their all for a mere building, but that's just what happened. Also, one might expect that the Hoffman-Seymour combination, made up mostly of flabby freshmen, would trounce the beer-sauced South Side Six. But no, this was not the case; the Pettie-McVicker boys felt the glow of spirit and tradition seep up in them from the knowledge that they represented an establishment years older than that of their opponents. And so they went out there and died (nearly) for dear old Pettie-McVicker, and it is no wonder that the vanquished, in admitting defeat, gave forth the cheer "Yes, Pettie! It is better!"

In all, I think we should be quite pleased with the show of enthusiasm in touch football this spring. The four teams in the league have now played their first games and in every instance there has been a large enough turnout to provide ample substitutes, a thing which in the past has been very rare indeed. But yes, it is true. So let's take it for an even greater turnout! Come on down and join us intellectuals. Touch football really is good fun and plenty of exercises, and besides, you might as well enjoy this exercise while you still are able to CA-3 with a g in a sitting game. (By the way, I wanted to warn you, the game before the team, Silesia, ch?)

Well, with the World Series coming up between Cincinnati and Philadelphia, many Bardians feel that it is time to start thinking about a baseball team for next year. Setting, aren't they? I guess that by this year's crop of freshmen has brought in a few DiMaggio and Walters. It would be a good thing. In any case, there is to be a baseball game tomorrow afternoon in order to determine who will be chosen. Game at 4:30 P.M., the third game between the two teams will be played.

FROM THE EASEL

The Bard art department branched out last summer when it sent exhibitions to various schools which included the Lenox School and the Fairfield School. In Orient Hall there was a similar exhibition open to summer visitors.

The work included in these exhibitions was from the architecture class, photography class, sculpture class, and from the art 1-2 and figures respresent, other than themselves, there were also house models which included possible plans for new faculty homes. Most of these were in the modern vein. The photographs are interesting but many potential powers. Its success depends upon the student's body of knowledge and the student's opinion on educational policy, program or personal. It is almost always absent, and the student, when he is present, is usually aware of the student viewpoint, is usually aware of the student viewpoint. The committee is as useful a project as can be dreamed of, and I think we are very much pleased with it.

The Coyotes, who have had the advantage of having been instructed, are invited and will be of increasing interest to the college and many of its outside friends.

Whether or not the architectural designs for faculty houses materialize further than their value as practice is dubious. The photography class is a pamphlet showing the outstanding activities of Bard Life. The space started the last but this spring to finish work on the pamphlet for the pamphlet at that time, but is attempting to complete it early this spring.

The photographers, painters and students in design, who have by this time added experience, ought to be able to fill in the blank walls of the dining common, brighten up the glassy reception room in the Library, and supply suitable athletic prizes for the gymnasium of the college.
