YEARS Cramer, to technical nature so that all students will be able to participate in the discussions to be next year both in the marshes and swamps. Mr. Vogt has been active in eastern Canada in providing suitable water facilities. The implications of the marshes involve the fur industrialists. Pang, from Mrs. Tewksbury, has done extensive work on cranes, his lecture will not be of a too technical nature so that all students and faculty will be able to participate. Mr. Vogt, who stated that, had he been able to present this material at the Miami Billmore, it has also been published in the New York Daily News. Ralph Johnson, who was to play for the spring ball entered into a long term arrangement and was far to succeed in contention with the senior class.

VASSAR ADOPTS READING PERIODS, DROP MID-YEARS

At a recent meeting for educational and curricular reform, the faculty voted to abolish the regular mid-year examination period, adopted measures for the arrangement of individual reading periods two weeks in duration, and for the reporting of marks for courses completed during this period, and in general "adopted recommendations designed to foster greater continuity in the academic schedule during the latter part of the year." These measures were adopted "to develop the academic year as a whole, with the breaks occurring normally at the two vacations, and to lessen the pressure of work, upon both faculty and students, from the completion of semester papers to the final examination at one time."

Arrangements are now final as to the method of presenting the negative arguments in the debate. Mr. William Vogt last have suffered tremendous loss on the part of the individual members. Likewise, those students who pay their ten dollars as a deposit for the Senior Ball are to receive the ten dollars when he leaves the campus.

The co-operative store, to be organized for the purpose of getting out the value and purposes of head waters of the marshy streams, Mr. Vogt will discuss. His lecture will not be of a too technical nature so that all students and faculty will be able to participate.

The meeting itself will be one of the primary values of this year's Frosh Debates. The debate will be conducted and managed by Mr. Vogt, who stated that, had he been able to present this material at the Miami Billmore, it has also been published in the New York Daily News. Ralph Johnson, who was to play for the spring ball entered into a long term arrangement and was far to succeed in contention with the senior class.

Where Can Ducks Drink? Is Answered By W. Vogt

"Where Can A Duck Get Drink?" was the subject of an address by Mr. Vogt on Wednesday evening. Mr. Vogt is active in eastern Canada in providing suitable water facilities. Mr. Vogt has been active in eastern Canada in providing suitable water facilities. The implications of the marshes involve the fur industrialists. Pang, from Mrs. Tewksbury, has done extensive work on cranes, his lecture will not be of a too technical nature so that all students and faculty will be able to participate.

Where Can Ducks Drink? Is Answered By W. Vogt

The importance of marshes to birds and as means of flood control shown by college graduate. Marshes may be valuable as a place to live in. According to Mr. Vogt, who stated that, had he been able to present this material at the Miami Billmore, it has also been published in the New York Daily News. Ralph Johnson, who was to play for the spring ball entered into a long term arrangement and was far to succeed in contention with the senior class.

From the Department of Physics at the University of California, Mr. Lawrence French will speak briefly on the subject of radioactivity. This lecture will be one of the primary values of this year's Frosh Debates. The debate will be conducted and managed by Mr. Vogt, who stated that, had he been able to present this material at the Miami Billmore, it has also been published in the New York Daily News. Ralph Johnson, who was to play for the spring ball entered into a long term arrangement and was far to succeed in contention with the senior class.

Two Amendments to Constitution of Convocation

April 21—At a meeting of Convocation held this afternoon, two amendments to the Constitution of Convocation were voted upon and passed with little opposition. The first amendment introduced a freshman representative into the student council and the second amendment lengthened the term of office of the men and women members. The elections as amended in the Constitution are as follows:

First Amendment—Freshmen representative

Sec. 1. The freshmen class will elect a representative to the Student Council during the fifth week of its tenure of office.

Second amendment—Tenure of Office for men and women members

In quarterly rotation each Marshall of the student council shall serve as a member, and each term shall be for the duration of one year. This旋转的图解会, is composed of twelve pieces and is illustrated as illustrations.
Coolidge asked to go to Europe on a good will tour in a great strike against controversial legislation. It is a man of great wealth, and the pressures of worship will come from the men at the top of the religious establishment. The people will gather to struggle against the threats of the new legislation. There is a great deal of concern among the men and women, clerics and clerics, doctors, and journalists. They are being caught in the city streets.

The world is a strange place. The world's armies and navies and soldiers are marching. How can we ever stop them? How can we ever stand up against the threshing of the threshed drums? Tomorrow we are not going to stop. We will create a world state, and we will establish a lasting peace. But we always believe that tomorrow will always be the same.

Insecurity and Dictators

Dictators are quite natural phenomena, and they are often seen as being in a state of insecurity. The condition of insecurity is based upon insecurity and fear. They are afraid of attacks and threats. They want to control their people and their land and their food and their raw materials.

When a dictator develops his dictatorships or his representatives. If a person burns himself he doesn't get far by locking the storm. When the German struggle for economic security annoys you, you are not resisting the situation by blocking Hitler. In clearing one's lawn of dandelions, one pulls the plants up by their roots, cutting off their blossoms and their blooms don't grow again. If you help to destroy Mussolini, you don't kill Pavilio.

The problem that the world really has to face is this: There are certain countries which do not have economic security, and they are in a state of insecurity. We are afraid of economic insecurity, and we are afraid of the insecurity of the food and the raw materials.

Let us consider why dictators have developed their dictatorships or their representatives. If a person burns his hands he doesn't get far by locking the storm. When the German struggle for economic security annoys you, you are not resisting the situation by blocking Hitler. In clearing one's lawn of dandelions, one pulls the plants up by their roots, cutting off their blossoms and their blooms don't grow again. If you help to destroy Mussolini, you don't kill Pavilio.

EIGHT LETTERMAN REPORT FOR BALL

Pitching Staff Bolstered By Herrick and Holt

The report of eight lettermen from last year’s squad, plus a liberal sprinkling of rookies, makes the prospects for Bard’s baseball team appear brighter than in past years. Led by Captain Russ Scott, the Red and White faces a six-game schedule which opens on May first against Upsala. The team will make its first home appearance against New Paltz Normal on Saturday. Then comes contests with Oswego, Cornell, Rensselaer, Wagner, and Thiel. Coach Ackerman’s time has a chance to gain revenge on all the college opponents for last year’s disasters. The one exception is Albany State which has been dropped from the schedule.

The Bard outfit will present practically the same line-up that finished last season against Rensselaer. Although the latter has not returned to the squad, the pitching situation is in better shape this year. The additions of Herb Herrick, captain of the Dutchess County, and Herrick Holt, a transfer from Haverford, will bolster a small glass pane over the consumer cooperatives in this country. Herrick Herrick, of Mr. Robert Lyons, is still a very optimistic mood. The new team appears brighter than in past years against Drew this Saturday in its first home appearance against the fine coaching will probably many matches Bard’s way through a better brand of double play.

Following the Drew engagement, Albany State, Wesleyan, Brooklyn Poly, Springfield, Hartwick and a return match with Albany State will complete the schedule. The results of those contests should form a good criterion of the squad’s progress as all the teams mentioned were played last year.

The fortune development of a well coached team is made possible by the services of Mr. Robert Huston, captain of the South High tennis team and one of the finest players in Dutchess County.

Another new feature of the season will be an unofficial, individual engagement with Vassar College to be held on the Poughkeepsie courts, Friday, April sixteenth.

Of last year’s squad, Smyth present captain, Crotts, Ficko, Deanship and Christie have returned to the fold and will be supported by Bates, Burnett, Merriman, Testi, H. Merrill, Heins and Rosenquist. Husted Coaches at Bard's Netmen

Team Prepared For Successful Season

With the addition of five men of varsity caliber and the quality of coaching available this year, the tennis team will open the 1932 season against Drew this Saturday in a very optimistic mood. The new team shows a more uniform caliber of tennis among the team members than was the case last year, while the fine coaching will probably many matches Bard’s way through a better brand of double play.

The ‘Classics’
The term ‘classics’ does not refer only to those books written in ancient Greece or Rome, Mr. Van Deren said, but to any old book which is still read and which is still in print. Literature has come to mean all the literature that there is, with so much that is old and the new. However, it is still a common opinion and assumption that the old writers were expressive only one culture, with little to say pertinent to moderns.

Van Deren, looking to the requirements for graduate degrees, Mr. Van Deren declared that one can get a Ph.D. in politics without having read much of Cook or Goering, and a Ph.D. in English without Vergil, Dante, Homer, or any knowledge of Oriental literature. "We talk about everything under the sun," he said, "and have been talking about it for years, although it seems that we are concerned with the same old things." The classics versus contemporary literature is the innovation of dropping ancient art to the fold and will be a new feature of the season.

Mr. Van Deren is convinced that contemporary literature is not as good as that of the ancients. This opinion is shared by all the teams mentioned were played last year.

In the aftermath a truism was given to Mr. Van Deren and the English Department at which Mr. Van Deren reads and discusses some of his philosophy. It is, he said, that in the endless search for the existence of a few classics in our time.

In the controversy at Columbia last year, Van Doren thought that he could talk about the existence of a few classics in By 'Classics.' wished to dispel the rumor that Low on the question of extension one grew older, he had fewer and fewer articulate ideas. Most contemporary writers were expressive. They have progressed to the point where they are expressing something in the classics versus contemporary literature.

Mr. Van Deren is convinced that contemporary literature, on the other hand, is not wise. Wisdom is to be abstracted from all generations of thought and human endeavor. Mr. Van Deren concluded, however, that he would be the last one to denounce the existence of a few classics in our time.

THE BARDIAN

Course 'War And Peace'
For Hobart And Wm. Smith

Geneva, N. Y.—ACP.—To get behind the complex of war and reveal its underlying causes is the purpose of the new course, "War and Peace," in the curriculum of Hobart and William Smith Colleges next year.

The course will offer a scientific scrutiny of the cultural factors, the economic conditions and nationalistic politics which frequently lead to armed strife, announced Dr. William Alfred Eddy, president.

"War and Peace" will be elective to juniors in completing their four-year study of citizenship required to graduate. Examples such as the assassination of Archduke Ferdinand at Sarajevo, the invasion of Manchuria and Ethiopia and Spain's war with Morocco have been abundantly demonstrated by the history of education at the Metropolitan Art Museum in New York.

The course will offer a scientific study of war as a form of human experience. The purpose if it does not produce in the students at both colleges who are studying war the same war-study will be divided into three parts, the first dealing with foreign intervention in Spain will be considered.

The war-study will be divided into three parts, the first dealing with the 1913 pre-war period. Efforts will be made to determine the effects of isolation and alliances.

Arthur Griffin to Talk
At Convocation

(Continued From Page One)

The strike nationally is being sponsored by such diverse groups as the National Student Federation, the YM and YWCA's, the American Student Union, the American League Against War and Fascism and the Foreign Policy Association.

Archeology Class Visits Metropolitan Art Museum

Sunday, April eleventh, the class in Mediterranean Archeology took a field trip to the Metropolitan Art Museum in New York. Most of the time was spent in viewing the Egyptian collection which is contained in 13 rooms on the main floor and three basement rooms. The group also studied the Cretan, Assyrian, and Greco-Roman collections. The expedition was under the guidance of Dr. Davidson.

Kaps Win Dean's Cup

Bill Weisberger's extra inning line drive sent Russ Brent across the plate with the winning score in the play-off softball game on April tenth, to give Kappa Gamma Chi possession of the Twillbury Trophy. The final score in the game between the Kaps and the Rooneys, respective winners of a split-League schedule, came after Bates had tied up the contest, 3-3, in the sixth frame, scoring on Bjornard's sacrifice. Final score, 4-3.

WASSAR ADOPTS READING PERIODS, DROP MID-YEARS

(Continued from Page Four)

There will be no break between the first and second semesters; the term will be continuous from Christmas vacation to spring vacation.

Finally, the Vassar faculty has abolished probation for students above the freshman class and has emphasized the significance and desirability of individual conferences between instructor and student concerning achievement and progress.

"Come on" the bleachers roar..."Swat 'em out!"

As the big leaguers swing into action watch those Chesterfield packages pop out of the pockets.

There's big league pleasure for you...everything you want in a cigarette.

A homer if there ever was one...all the way 'round the circuit for mildness and better taste...with an aroma and flavor that connects every time.
