COMMITTEE GOES TO BENNINGTON FOR CONFERENCE

Fire Will Make Vermont Trip to Discuss Educational Policies.

A committee from Bard on educational policies will confer with a similar committee from Bennington College, Bennington, Vermont, over the weekend of April 6 to discuss educational policies of the two institutions under the direction of the religiousmailbox.

The conference was arranged by Dr. F. H. Franklin, chairman of the Bennington committee, and Mr. E. L. Simmons, chairman of the Bard committee. The first official contact between the two committee members took place last week in Cambridge.

The committee will visit the Bennington campus and confer with faculty and administration on educational policies.

SENSORS HEAR YOUTH DESCRIBE ITS OWN PLEITGE

Washington, D.C. — NSFA. Representative Maruyama of Texas has introduced a resolution to end the war in Cambodia. The resolution was passed by both houses of Congress and is expected to be signed into law by the President any day.

The resolution calls for the immediate withdrawal of all U.S. military personnel from Cambodia. It also calls for a moratorium on all U.S. aid to the South Vietnamese government, including economic and military assistance.

The resolution was introduced by Representative Maruyama, who is a member of the House Committee on Foreign Affairs. He has been a long-time advocate of ending the war in Cambodia and has been a consistent supporter of the resolution.

The resolution is expected to be signed into law by the President any day. It is anticipated that this will bring about the end of the long and costly war in Cambodia.

DASTARDLY PLOTTING OF SYRACUSE STUDENTS IS NIPPED BY CLERK

By Cyrus W. V. ALCIP-Personal, an appreciable informal relations, is a new study of twenty-five Syracuse University students who have violated the law by filing false claims for the benefit of others. The study, conducted by Mr. V. ALCIP, has shown that the majority of the students are taking advantage of the system to get money for themselves.

Mr. V. ALCIP, a sociology professor at Syracuse University, has been working on the study for the past year. He has interviewed over one hundred students and conducted questionnaires on a large scale.

The results of the study indicate that the majority of the students are taking advantage of the system to get money for themselves. The study also shows that the majority of the students are not aware of the fact that they are committing a crime.

Mr. V. ALCIP has recommended that the system be changed to prevent such abuses in the future.

“PARDON OUR SOUTHERN ACCENTS” — SAY ACTORS IN “DOMINO PARLOR”

Acquisition Of Drawl Fits In With Educational Program as Bard Theatre Seeks Twenty Southwestern Southerners.

Southern accents will be at a premium in the next few weeks, for it appears that they are the only accents which will be able to supply the need for the “Domino Parlor,” says Lynn Riggs.”

Lynn Riggs, the young actor and director who is known for his use of Southern dialects, has been actively seeking Southerners for his upcoming production of the play, “Domino Parlor.”

Riggs is known for his use of Southern accents in his productions, and has been actively seeking Southerners for his upcoming production of the play, “Domino Parlor.”

While the accent of actors and dialects is vital in the Southern context, it is not the only factor that the producers of the play are considering. The production team is also looking for Southerners who have a strong command of the language and who are comfortable using it on stage.

“DOMINO PARLOR” TO BE PRESENTED BY BARD PLAYERS

Lynn Riggs Vehicle To Play One Week Starring Mary Michael.

With a cast of more than thirty vocal and musical numbers, Lynn Riggs’ “Domino Parlor” will be presented at the Bard Theatre, the first week of May.

The leading role, that of Tami Michael, will be played by Mary Michael. Miss Michael has appeared as an extra in the movie and was recently seen in the play “The Last of the Mohicans.” She is a graduate of the University of Pennsylvania and has appeared in several Broadway productions.

The play is set in the 1850s and centers around the story of Mary Michael, a young woman who is trying to make a name for herself in the city. The play is a love story and a drama about the struggles of young people in the 1850s.

BURLESQUE ISSUE TO BARD LIBRARY IN NEW ENGLAND

Students In Many Colleges Offer Assistance In Relief Work.

The manuscript volume now on exhibition in the Hoffman Memorial Library contains an array of valuable considerations of the political and social conditions. Among these, the following is particularly noteworthy:

"The Burlesque Issue to Bard Library in New England"

"The Burlesque Issue was released in the spring of 1817 by the Hoffman Memorial Library. It contains a variety of essays and pamphlets, including the famous "Burlesque Speech on the Election of 1816." The volume is being exhibited through the courtesy of the Hoffman Memorial Library and the Bard College Library.

Other Eastern schools have second or third-hand encounters with their own history. The Penn State band, for example, would not have felt quite the same if its trip to Bennington had been covered by the Penn Statesmen. However, the Penn State band is not the only group with an interest in the event.

The trip to Bennington will be made by Messrs. Cramer, Kozel, and Members of the Bard College Band, a faculty member and a member of the directorial committee. The trip, however, has not been announced yet.

WILL HELP EDIT POETRY ANTHOLOGY

Mr. Genzmer is a member of the committee of the English Department of Columbia University that will edit the 19th edition of the Poetry Anthology. If you are interested in submitting poems for publication, you may see either Mr. Erlanger or the editors of the Anthology here at Bard.

The committee on Buildings and Grounds, presided over by Professor E. O. Baugher, stands ready to join with any students interested in submitting articles for the forthcoming burlesque issue of The Bardian. This is an innovation in the college's educational program. The committee is working on a new dormitory, which is to be built in the near future.

American Student Tells Status Of Higher Education Under Mussolini Regime In Fascist Italy

This is the second in a series of articles written exclusively for The Bardian and The Associated Collegiate Press by Series A. B., President, former Second Prize student and now a student at the University of Rome, on the Fascist higher education exchange fellowship of the American University at the University of Rome. — By Series A. B.

The Italian government has determined to take several continents from the circumference of its university professors.

There was little sport in the Italian universities when those professors were studying for their degrees; there has been almost wholly the creation of the Fascist government. Into these plans, the students have fallen eagerly, and it has had no trouble getting them to take part in soccer, basketball, rugby, tennis, track and the other Fascist sports. The professors, however, have taken their Knapsack too close to the libraries and dinner-tables, and their weights have not descended thereon. Thus the students have gone to the gymnasium and the university gymnasium to the gymnasiums of their hearts.

In the plans for the new university at Rome, that Mussolini instructed the architect not only to plan for a gymnasium for the students, but to include in his plan a gymnasium for all sport.

Intramural competition is provided as well in tennis and boxing. In the winter, the GUF arranges expeditions to the mountains for skiing; in the summer it sponsors rowing teams. It even plans a swimming pool for the new university city at Rome.

OF RICH, RIPED-BODIED TOBACCO

The simple mechanical details of cigarette manufacture are of surprising importance. Upon them depend the physical properties of the cigarette, such as weight, size, filtering, moisture-holding properties, uniformity of fill, uniformity of product—all of which have a far-reaching effect on the character of its combustion and the consequences of its smoke.

In the manufacture of Lucky Strike Cigarettes all of these properties have been standardized with care for the perfection of A LIGHT SMOKE.

And if winter comes can spring be far behind? No. And if spring comes can baseball and tennis be far behind? Again, no. At this early date it looks as though there isn't much to be said either for baseball or tennis. There was a short work-out the other day—and maybe one of these will be forthcoming. As for tennis, nothing very much can be done until the weather changes. However, for better... Williams and Simmons will be in charge of the varsity tennis squad. The weather is in the throes of adjustment at present... and more news will be available later.

The finals of the first and second interclass basketball tournaments, the frosh and sophomores with the sophomores on top of a 45-29 score. Applause for Bates' new Cuilline. All the sophomores at the last minute seemed to have come out to rain. When he was through, the crowd looked like the old linny can you wouldn't want to borrow from some girl friend's old man to take his daughter parking. But was what a happy car? The kids had their Bates'ball tied with Putnam (Non-Society) for high singles—both men having struck with basketball, softball, soccer, and baseball. Softball, how many of them can play a game of softball, and get to base without a catcher? No. And if spring comes can baseball and tennis be far behind? No. And if winter comes, can spring come? Benny loved it.

At least he was seen wearing a Non-Soc 12-3 victory over Putnam, tying with a Non-Soc. 12-3 victory over Putnam. With basketball, softball, and baseball, we ought to remember the night he invited us to dinner. And so did Benny. We'd have a swell Cadillac which Benny had a swell Cadillac which wasn't selling itself to the college. We'd have a swell Cadillac which Benny had a swell Cadillac which we'd have to borrow from your dad. The kids had their own Cadillacs. And so did Benny.

BARD COLLEGE

Residential Unit of Columbia University

EDUCATIONAL PROGRAM

The new educational program of Bard College is designed for young men who are prepared to undertake responsible work along the lines of their own abilities in the fields of the liberal arts and sciences. Each student accepted by the College is offered the opportunity of building under guidance his own curriculum beginning in the first year with a trial major in his chosen field and progressively extending his studies into related fields. Individual tutorial conferences held twice a week with the members of the faculty are a feature of the program. The Bachelor of Arts of Columbia University is conferred upon graduation.

SELECTIVE ADMISSION

Candidates for admission are selected primarily on the basis of the quality of their preparatory school record and the recommendation of the schoolmaster or principal. Preference is given to those applicants, otherwise qualified, who present evidence of marked ability in some broad field of study so as to show evidence of scholarship in mathematics; languages and literature; fine arts, music, and drama; or the social sciences and history. The entering class is limited to seventy-five students. Communications regarding admission, and requests for a descriptive catalogue, should be addressed to the Director of Admissions.

FEEs AND SCHOLARSHIPS

Under the new program, the inclusive fees for the year amount to twelve hundred dollars, allowing seven hundred dollars for tuition and five hundred dollars for board. Scholarships are awarded in varying amounts up to five hundred dollars on the basis of ability and need to students who are unable to meet the regular charges. Applications for scholarship adjustment should be made to the Committee on Scholarships.

Bah! Bah! Bombshell
Have You Any Heart

New York—ACFI—The two-
 pound incendiary bomb, con-
taining thermite, will be the
real peril in the next war, ac-
according to Prof. J. Enrique Zan-
etti of Columbia University's
chemistry department.

"A single two-ton bomb can
carry 30,000 of these bombs," says
Prof. Zanetti, "and if only one in
100 makes a hit, that bomber
will start twenty fires within a
few minutes of each other."

Thermite is a mixture of iron
oxide and powdered aluminum
or magnesium, stable if protect-
ated from moist air, but reacting
violently if heated to a high
temperature.
