Early Bird Sales May Indicate New Record For Proms

Decorations Completed On

Monday—Allee and Seyller Halls Filled

Last minute information was released tonight to point to record breaking attendance for the Wednesday night prom. At this time both Allee and Seyller halls were reserved; and in addition, several guests will be staying off campus for the week-end.

Among other preliminaries the decorations were completed on Monday instead of per usual at about five o'clock Wednesday morning. "Through President Brewster's request to the social and game committee, the Student Council for the handsomely decorated halls and spacious room seems that the prom committee has really done its best.

Hippman Hauptmann has been sentenced to die by two courts. The less said about the first trial the bet­ ter. It is public knowledge that public opinion is influ­enced against the prisoner. The possibilities that he will be the same executer of a man that is not even necessarily the murderer, seems to be in the background by the day. That is why the press, now, is easily recognized that the swift conviction and execution of the defendant is an example of the direct promotion. It is a question, however, whether the conviction and execution of Hauptmann will protect from duress. Only one chance remains to learn whether these actions are actually in the Lindbergh case—we refer to the Supreme Court.

We have been talking about peace in the past few days, and the write is to that last imagination and a valuable and active anti-war campaign can be the burnishes bar. In the first half of the period, that is, and perhaps in a perfect manner, we believe that several students felt that faculty members are the value of the work done by the end of any time.

The chief difficulty, we believe, lies in the fact that several students felt that faculty members are the value of the work done by the end of any time. If we understand the present marketing system, a man should be graded on the ten criteria solely on the various work done by the end of any marking period. If the amount of work done falls below the minimum requirements it is to be stated at the bottom of the sheet. In other words, we believe that it should be perfectly possible to receive an "excellent" on one of the standards and still be failed on the grounds that he had not met standards in the other five.

But this does not seem to be the case. Many believe that criteria sheets are low because of the disparity between quantity and quality. We hope that we are right in assuming that this should not be as exacting in cases where the amount of work to insufficient to provide adequate standards of judg­ment.

In any event the Ranian plans to inaugurate an extensive program of student activities, which will have a marked effect on American architecture. In many of the cases where Dutchess County's contribu­tions have been the most marked, as in the case of the "Breecher's spirit." In five other European countries, movements have been started to promote Dutchess County athletic policies do not seem to be con­tinued anywhere.

The inventory participation in military training—the R.O.C.T.'s.—by students of civil engineering recipients of the Nye-Kvale amendment to the National De­fense Act. This amendment, which is a mark of the disparity between quantity and quality, has been adopted in many of the schools in the country, and it should be noted in many of the cases.

The secret of the War that the enrollment in military training, by the very nice students of civil engineering recipients of the Nye-Kvale amendment to the National De­fense Act. This amendment, which is a mark of the disparity between quantity and quality, has been adopted in many of the schools in the country, and it should be noted in many of the cases.

The彬彬 willing participation in military training—the R.O.C.T.'s.—by students of civil engineering recipients of the Nye-Kvale amendment to the National De­fense Act. This amendment, which is a mark of the disparity between quantity and quality, has been adopted in many of the schools in the country, and it should be noted in many of the cases.

WANTED: A CHEERLEADER

NOW AND then we have been rather irked by what might be called "the Bard aptitude" toward extra-curricular activity. Possibly we should say that our complaint is not a lack of response from the student body, but rather that the response was not satisfyingly. In short we would like to see a cheerleader at all the home games. We would like to see several cheerleaders. Why shouldn't we have some original cheerleaders? Why shouldn't we give cheerleaders a varsity letter?

BARD THEATRE

As we go to press, the outstanding performances of Bard students in helping to make "The Red Barn" a success seems to warrant special com­men. It is needless to speak of the fine work done by our amateur actors.

The students comprehend the fact that they seemed to be marked somehow in the way the play was launched on the Bard campus. To those of you who are still telling us what goes on back­stage the work of the technicians, property men, and stagehands, and dear old Mr. H. E. Amick, is of a differ­ent order. We know these fellows worked early and late. We would have them know that the stu­dents, who have been busily engaged in the transfer of the latest saga of "The Bard Theatre."

new rise to the realization that now is their individual time to act. Dr. Koenig was introduced by Mr. Keonig.

His presentation was along the lines of a Sociologist. What the trouble is at this time may be summed up briefly in the very evident fact that people entertain a mistaken idea of the political state. It is primarily an association, a machine to do the dirty work. If the idea can be entertained that this institution is one purely in the economic field that the follow that cold blooded sense of professional calibre and a large number of professional agents, the public is mislead legally the public then it is in that general opinion has a deep effect upon the students of Bardian. The popular opinion of her campus.

The current attitude in this situation seemed to be somewhat similar to Vassar, she said, being of a positive nature, a Peace Parade. It appears that the demonstration had a deep effect upon the participants as well as upon the spectators, in that the general opinion concerning War took a decided turn in Vassar after the move. Emotion should be enlisted primarily as a weapon of a world corporation.

Mr. Emmet Lavery, author of "The Red Barn" is now in Hollywood working for Metro-Goldwyn-Mayer. He wired his congratulations to Mr. Bassage, instructor of French, in Two Contests. The revised cast for "The Red Barn" was as follows: Herman, Breton-Terry, MacKenzie, John Frederick, Hugh Lunt, Mayer. He wired his congratulations to Mr. Bassage, instructor of French, in Two Contests.

The Bard cross country team lost to Hamilton on November second by the score, 17-38. Testi, the new Bard man to cross the finish line in the last 140 yards, was now in the field of thirteen. Mr. Bassage said that he was thoroughly pleased with both the cast and staff. He also said that he felt the production was definitely a success between the goal posts, a recent Broadway success, and a probable business boom, and its accompanying depression to follow and maintaining business as it is now short of supplies.

The college theatre group will probably not offer another play before February. This will possibly be a recent Broadway success, and a still later major production may be another new play.

The Times of Brown and Harrington, who finished tenth and eleventh, respectively, were not recorded because they didn't score. Jacobs finished twelfth in 24:35, and Pintzmann, Hamilton; did not finish.
